General Instructions

For taxable years beginning on or after January 1, 1998, Arizona law provides a credit for employers that employ recipients of Temporary Assistance for Needy Families (TANF). TANF is assistance granted under Section 403 of Title IV of the Social Security Act as it exists after August 21, 1996.

The credit for employing TANF recipients is equal to:

1. One-fourth of the taxable wages paid to each qualified employee in the first year or partial year of employment, not to exceed \$500 per net new employee.
2. One-third of the taxable wages paid to each previously qualified employee in the second year of continuous employment, not to exceed \$1,000 per net new employee.
3. One-half of the taxable wages paid to each previously qualified employee in the third year of continuous employment, not to exceed \$1,500 per net new employee.

You cannot take a deduction for the same wages for which you take a credit. You must add the amount of the credit figured for the taxable year to your Arizona gross income.

If the allowable credit exceeds your income tax liability, you may carry over any unused amount for up to five taxable years.

This credit is available to individuals, corporations and S corporations. A partnership may pass the credit through to its partners. An S corporation may also pass the credit through to its shareholders.

For more information on this credit, see Arizona Department of Revenue brochure, Pub 708, *Credit for Employment of Recipients of Temporary Assistance for Needy Families*. To get a copy of this brochure, visit our web site, or call one of the numbers listed above.

Part I - Business Information

Lines 1 through 3 -

On lines 1, 2 and 3, enter the name, address, Arizona withholding number and federal employer identification number of the business that employs qualifying employees.

Part II - Net Increase in Qualified Employment Positions

Lines 4 and 5 -

This credit is based on net increases in qualified employment positions. You must determine the net increase in the number of qualified positions by comparing the average number of qualified employment positions during the taxable year with the immediately preceding taxable year. This comparison is based on the report that you submit to the Arizona Department of Economic Security for unemployment purposes.

On line 4, enter the average number of qualified employment positions during the current taxable year. On line 5, enter the average number of qualified employment positions during the immediately preceding taxable year.

A qualified employment position is a position that meets all of the following.

- The position must be classified as full-time employment.
- The position must provide health insurance coverage if the employer offers the coverage to other employees not on TANF.
- The position must provide compensation equal to the minimum wage or a wage comparable to that paid other employees not receiving TANF in the same job classification.
- The position must be listed on the report that you submit to the Arizona Department of Economic Security for unemployment purposes.

If the business is a newly established business, the business would not have any qualified employment positions during the immediately preceding taxable year. A newly established business would have zero average employment positions during the immediately preceding taxable year. This business would enter zero on line 5 of the Arizona Form 320.

If the business is an established business, the business must figure the average qualified employment positions of the immediately preceding taxable year using the following worksheet. Line 15 of the worksheet's immediately preceding taxable year column is the amount you should enter on line 5 of the Arizona Form 320.

Complete the following worksheet to determine the average employment.

On lines 1 through 12 below, enter the number of qualifying employment positions the business had during each month of the current taxable year and the immediately preceding taxable year.

Line 6 - Net Increase in the Number of Qualified Employment Positions

Subtract line 5 from line 4. If this amount is less than one, enter zero. If this amount contains a decimal, round down to the next whole number. This is your net increase in qualified employment positions.

NOTE: *If the amount shown on line 6 is zero or less, you may not claim this credit for qualified employees hired during the year.*

Line 7 -

You cannot take this credit for any position that is eligible for any other Arizona employment credit based on wages paid. On line 7, enter the number of positions on line 6 that are eligible for any other income tax credit under Arizona law.

Line 8 -

Subtract line 7 from line 6. This is the maximum number of new employment positions for which you may claim a credit for employees in their first year of employment.

- The employee was a recipient of TANF at the time he or she was hired. The employer should obtain documentation from the employee substantiating that the employee was a TANF recipient on the date of hire.
- The employee was employed for at least ninety days during the first taxable year. An employee hired with less than 90 days left in the taxable year is considered to be a new employee in the next taxable year. Periods when the employee's wages are subsidized under Section 46-299 cannot be counted as employment time.
- The employee was not employed by the taxpayer within 12 months before the current date of hire.
