General Instructions

ARS §§ 43-1081.01 and 43-1170.01 provide a nonrefundable tax credit for expenses that a taxpayer incurred during the taxable year to purchase agricultural pollution control equipment. The tax credit applies to taxable years beginning from and after December 31, 1998.

To Qualify for the Credit:

- The taxpayer must be involved in the commercial production of livestock, livestock products or agricultural, horticultural, viticultural or floricultural crops or products; AND

The taxpayer must purchase tangible personal property that is primarily used in the taxpayer's trade or business in Arizona to control or prevent pollution.

- Property eligible for the tax credit includes only that portion of the property directly used, constructed, or installed in Arizona to prevent, monitor, or reduce air, water, or land pollution.
- Qualifying property includes a portion of a structure, building, installation, excavation, machine, equipment, or device, and any attachment to, or addition to, or reconstruction, replacement, or improvement of that property.

Amounts that qualify for the credit must be includible in the taxpayer's adjusted basis for the property. The adjusted basis of any property for which the taxpayer has claimed a credit must be reduced by the amount of credit claimed for that property.

The amount of the credit is equal to 25 percent of the cost of the property. The maximum credit that a taxpayer may claim in a taxable year is \$25,000.

A credit allowed under ARS § 43-1081.01 or § 43-1170.01 (agricultural pollution control equipment) is in lieu of a credit under ARS § 43-1080 or § 43-1170 (pollution control credit) with respect to the same equipment or expense.

Co-owners of a business, including partners in a partnership and shareholders of an S corporation, may each claim only the pro rata share of the credit allowed based on the ownership interest. The total of the credits allowed all such owners may not exceed the amount that would have been allowed for a sole owner of the business.

If the allowable tax credit exceeds the taxes otherwise due or, if there are no taxes due, the amount of the credit not used to offset taxes may be carried forward for not more than five taxable years as a credit against subsequent years' income tax liabilities.

Specific Instructions

Complete the name and taxpayer identification number section at the top of the form. Indicate the period covered by the taxable year (in an MM/DD/YYYY format). Attach the completed form to the tax return.

All returns, statements, and other documents filed with the department require a taxpayer identification number (TIN). The TIN for a corporation, S corporation, or a partnership is the taxpayer's employer identification number. The TIN for an individual is the taxpayer's social security number or an IRS individual taxpayer identification number. Taxpayers that fail to include their TIN may be subject to a penalty.
