General Instructions

Purpose of Form

Taxpayers filing Arizona Forms 99T, 120, 120A, and 120S use Arizona Form 220 to determine if they are subject to a penalty for underpayment of their Arizona estimated tax liability, and if so, the amount of the penalty.

The taxpayer's Arizona estimated tax liability is determined as follows: [income tax plus tax from recapture of tax credits] less [nonrefundable tax credits and any refundable tax credits].

CLAIM OF RIGHT ADJUSTMENT (FORMS 120 AND 120A):

A taxpayer that computes its tax liability under the claim of right provisions should base its estimated tax liability on the net tax liability computed under the claim of right provisions.

Who is Subject to the Underpayment Penalty

If the taxpayer's Arizona tax liability (reduced by any refundable tax credit and the claim of right adjustments, if applicable) is less than \$1,000, the taxpayer is not subject to this penalty. Arizona tax liability is from Arizona Form 99T, page 1, line 11 (reduced by any refundable tax credit, if applicable); or Arizona Form 120, page 1, line 21 (reduced by any refundable tax credit and the claim of right adjustments, if applicable); or Arizona Form 120A, page 1, line 13 (reduced by any refundable tax credit and claim of right adjustments, if applicable); or Arizona Form 120S, page 1, line 17 (reduced by any refundable tax credit, if applicable).

A. Forms 99T, 120, and 120A: Generally, the taxpayer is subject to the penalty if the tax shown on the taxpayer's 2021 Arizona tax return is \$1,000 or more and it did not timely pay at least the **smaller** of:

- Ninety percent of the tax (reduced by any refundable tax credit and the claim of right adjustments, if applicable) shown on its 2021 return, OR,
- The tax shown on its 2020 return (reduced by any refundable tax credit and the claim of right adjustments, if applicable). The taxpayer must have filed a 2020 return showing at least some amount of tax and the return must have been filed for a period of 12 full months. However, a "large corporation" may base only its first required installment on the prior taxable year's tax.

NOTE FOR ARIZONA FORM 120: *A unitary group of corporations filing a combined return* must make its estimated tax payments on a combined basis. Therefore, a unitary group, as a single taxpayer, must compute the underpayment of estimated tax penalty on a combined basis if its Arizona tax liability for the taxable year is \$1,000 or more.

NOTE FOR ARIZONA FORM 120: *An Arizona affiliated group filing an Arizona consolidated return* pursuant to Arizona Revised Statutes (A.R.S.) § 43-947 must make its estimated tax payments on a consolidated basis. Therefore, an Arizona affiliated group, as a single taxpayer, must compute the underpayment of estimated tax penalty on a consolidated basis if its Arizona tax liability for the taxable year is \$1,000 or more.

B. Arizona Form 120S: Generally, the taxpayer is subject to the penalty if the tax shown on the taxpayer's 2021 Arizona tax return is \$1,000 or more and it did not timely pay at least the **smaller** of:

- Ninety percent of the tax (reduced by any refundable tax credit, if applicable) shown on its 2021 return, OR
- If the taxpayer's 2020 return was filed for a period of twelve months, an amount of tax equal to the sum of:
Ninety percent of the portion of the 2021 Arizona tax liability that is attributable to built-in gains income or certain capital gains income; **plus**
One hundred percent of the portion of the 2020 Arizona tax liability that is attributable to excess net passive income.

NOTE: *In these instructions, "return" generally refers to the corporation's original return. However, an amended return is considered the original return if the amended return is filed by the due date (including extensions) of the original return. Refer to the department's ruling, CTR 02-1, Amended Return's Effect on the Estimated Payment Underpayment Penalty, for further information.*

The penalty is calculated separately for each installment due date. Therefore, the taxpayer may owe a penalty for an earlier installment due date, even if later "catch-up" payments were made for the earlier installment due date underpayment. A taxpayer may be subject to the underpayment penalty even if the taxpayer is due a refund when its return is filed.

A taxpayer may be able to reduce or eliminate the penalty by using the annualized income installment method or the adjusted seasonal installment method.

Who Must Complete This Form

A taxpayer DOES NOT HAVE TO COMPLETE Arizona Form 220, *Underpayment of Estimated Tax by Corporations*, if the taxpayer made estimated tax payments based on either of the following methods:

- *All taxpayers:* An amount equal to 90 percent of the current taxable year's tax liability (reduced by any refundable tax credit and the claim of right adjustments, if applicable), paid in four equal installments; or
- *Arizona Form 99T, 120, and 120A:* An amount equal to 100 percent of the taxpayer's tax liability (reduced by any refundable tax credit and the claim of right adjustments, if

applicable) for the prior taxable year, paid in four equal installments. A "large corporation" may not use this method.

The department will compute the estimated tax penalty based on either of these methods and notify the taxpayer of any amount due.

A taxpayer **MUST COMPLETE** Arizona Form 220, even though no penalty is due, if it made its estimated tax payments based on any of the following methods:

- *All taxpayers*: The annualized income installment method; **or**
- *All taxpayers*: The adjusted seasonal installment method; **or**
- *Arizona Forms 120 and 120A*: The taxpayer is a "large corporation" that computed its first required installment based on the taxpayer's tax liability for the prior taxable year; **or**
- *Arizona Form 120S*: An amount, paid in four equal installments, that is equal to the sum of:
 - Ninety percent of the portion of the current taxable year's Arizona tax liability that is attributable to built-in gains income or certain capital gains income; **plus**
 - One hundred percent of the portion of the prior taxable year's Arizona tax liability that is attributable to excess net passive income.

How to Use This Form

Check the applicable boxes in Part A. Complete Part B to determine if the taxpayer has an underpayment for any of the four installment due dates. If the taxpayer has an underpayment on line 15 (column (a), (b), (c), or (d)), complete Part C to calculate the penalty.

If the taxpayer is required to complete Arizona Form 220, include the completed Arizona Form 220 with the taxpayer's Arizona tax return. Check the box on Arizona Form 99T, page 1, line 22; Arizona Form 120, page 1, line 29; Arizona Form 120A, page 1, line 21; or Arizona Form 120S, page 1, line 25, to indicate Arizona Form 220 is included with the return.

Specific Instructions

Complete the name and employer identification number (EIN) section at the top of the form. If filing on a fiscal year, indicate the period covered by the taxable year.

All returns, statements, and other documents filed with the department require a taxpayer identification number (TIN). The TIN for a corporation is the corporation's EIN. Taxpayers that fail to include their TIN may be subject to a penalty.

Part A - Reasons for Filing Arizona Form 220

Lines 1 and 2 - Annualized Income Installment Method and/or Adjusted Seasonal Installment Method

If the taxpayer's income varied during the taxable year because, for example, it operates its business on a seasonal basis, it may be able to lower the amount of one or more required installments by using the annualized income installment method or the adjusted seasonal installment method.

Use Arizona Form 220, Schedule A, to compute one or more required installments. If Schedule A is used for any payment due date, it must be used for all payment due dates.

Use Schedule A to calculate the amount of each required installment and to select the lesser of:

- The annualized income installment; or,
- The adjusted seasonal installment (if applicable); or
- The regular installment (25% of the required annual payment) increased by any reduction recaptured under Internal Revenue Code (IRC) § 6655(e)(1)(B).

Follow the steps below to determine which parts of Arizona Form 220, Schedule A, to complete.

Part 2 - Adjusted Seasonal Installment Method

Complete Part 2 only if your base period percentage for any 6 consecutive months of your tax year equals or exceeds 70%. Figure the base period percentage using the 6 month period in which you normally receive the largest part of your taxable income.

The taxpayer's base period percentage for any period of 6 consecutive months is the average of the three percentages figured by dividing the taxable income for the corresponding 6 consecutive month period in each of the 3 preceding tax years by the taxable income for each of their respective tax years.

See the **EXAMPLE** below for information on how to calculate the base period percentage.

EXAMPLE: A calendar year taxpayer receives the largest part of its taxable income during the 6-month period from April through September. To compute its base period percentage for this 6-month period in 2021, the taxpayer figures its taxable income for each April through September period in 2018, 2019, and 2020. It then divides the taxable income for each April through September period by the total taxable income for that particular tax year. The resulting percentages are 65% for April - September 2018, 75% for April - September 2019, and 70% for April - September 2020. Because the average of 65%, 75%, and 70% is 70%, the base period percentage for April through September 2021 is 70%.

Therefore, the taxpayer qualifies for the adjusted seasonal installment method.
