General Instructions

NOTE: Form 308-I is used only by individual taxpayers. C corporations, S Corporations, exempt organizations with unrelated business taxable income, and partnerships must use the 2023 Form 308.

Arizona Revised Statutes § 43-1074.01 provides an individual income tax credit for increased research activities in a taxable year.

- The Arizona tax credit for individuals is allowed in an amount computed pursuant to Internal Revenue Code (IRC) § 41 with the following exceptions:
 - Qualified research includes only research conducted in Arizona. The term "qualified research", for purposes of the Arizona tax credit, means qualified research, as defined in IRC § 41, that is conducted in Arizona.
 - The amount of the credit is based on the federal regular credit computation method for Arizona qualified research expenses. The allowable current taxable year credit is a percentage of the excess, if any, of the Arizona qualified research expenses for the taxable year over the base amount.
- If two or more taxpayers, including shareholders of an S Corporation or partners in a partnership, share in the eligible expenses, each taxpayer is eligible to receive a proportionate share of the credit.
- The termination provisions of IRC § 41 do not apply.

NOTE: For taxable years beginning from and after December 31, 2022, Arizona will permit taxpayers to compute the Arizona Credit for Increased Research Activities using either the regular method or the Alternative Simplified Credit.

The Regular Credit

The amount of this credit is based on the federal regular credit computation method using Arizona qualified research expenses and Arizona basic research payments rather than federal amounts.

- The allowable current taxable year regular credit is a percentage of:
 - The excess, if any, of the Arizona qualified research expenses for the taxable year, over the base amount; and
 - The Arizona basic research payments.
- The termination provisions of IRC § 41 do not apply.
- If the allowable expenses do not exceed \$2,500,000, the allowable credit is 24% of this amount. If the allowable expenses exceed \$2,500,000, the allowable credit amount is \$600,000 plus 15% of the amount of expenses over \$2,500,000, subject to certain limitations.
- A portion of the current year's excess regular credit may be refundable if you qualify.

The Alternative Simplified Credit (ASC)

The amount of this credit is based on the federal ASC for Arizona qualified research expenses for the current taxable year in excess of fifty percent (50%) of the average Arizona qualified research expenses for the previous three years pursuant IRC 41(c)(4).

- In Arizona, the ASC is available for taxable years beginning from and after December 31, 2022.
- To be eligible to claim this credit in Arizona, the taxpayer must claim the ASC on its federal return.
- The ASC is binding for the year of the election and all succeeding years unless it is revoked with the approval of the department.
- The allowable current taxable year ASC is:
 - Fourteen percent (14%) of the Arizona qualified research expenses for the taxable year that exceeds fifty percent (50%) of the average qualified research expenses for the three (3) preceding taxable years.
 - If the taxpayer has no qualified research expenses in any of the three (3) preceding taxable years, the credit shall be equal to six percent (6%) of the qualified research expenses for the taxable year.
- Arizona will look to the IRC and IRS rules and regulations for guidance in determining this credit.
- A portion of the current year's excess ASC may be refundable if you qualify.

REFUNDABLE PORTION OF THE CURRENT YEAR'S EXCESS CREDIT

If you qualify, *and* if the current taxable year's credit for increased research activities exceeds your income tax liability, a portion of the excess credit may be refundable to you. To qualify to receive this refund:

- You must have less than 150 full-time employees.
- You must apply to the Arizona Commerce Authority (ACA) and receive a Certificate of Qualification (Certificate) to be eligible to receive a refund.
- The refund amount is the lesser of:
 - Seventy-five percent of the excess credit, or
 - The maximum refund amount indicated on the Certificate; any additional amount is waived.

The excess credit is the current year's credit less the current year's tax liability. The 75% refund is only available for the current year's excess credit for increased research activities.

The election to make this credit refundable must be made when you originally file your tax return to claim the current year's credit.

If two or more taxpayers, including shareholders of an S Corporation or partners in a partnership, share in the eligible expenses, each taxpayer is eligible to claim a proportionate share of the refund. An S Corporation must apply for the Certificate on behalf of its shareholders. A partnership must apply for the Certificate on behalf of its partners.

NOTE: *The refund of this credit is calculated after your tax liability. You must calculate all of your other credits before you can determine the current year's excess credit.*

CARRYOVER OF UNUSED CREDIT

For taxable years beginning before January 1, 2022 the Credit for Increased Research Activities – Individuals, claimed on Form 308-I that is not used to offset taxes may be carried forward to the next fifteen consecutive taxable years.

For taxable years beginning from and after December 31, 2021 the Credit for Increased Research Activities – Individuals, claimed on Form 308-I that is not used to offset taxes may be carried forward to the next ten consecutive taxable years.

If you receive a refund of 75% of the excess credit, you do not have any excess amount to carry forward for this year. Any carryover amounts from previous taxable years must be carried over to the next taxable year, subject to the statutory carryover period: fifteen years for credits established prior to 01/01/2022; and ten years for credits established after 12/31/2021.

DO YOU HAVE TO MAKE OTHER ADJUSTMENTS TO ARIZONA GROSS INCOME OR TO THE ARIZONA TAX CREDIT FOR INCREASED RESEARCH ACTIVITIES?

- If you claim an Arizona credit for increased research activities for the taxable year, Arizona statutes do not require you to make an addition to Arizona gross income for the amount of qualified research expenses equal to the amount of the allowable Arizona credit.
- If you claim a reduced federal credit for increased research expenses and claim the Arizona credit for increased research activities, Arizona statutes do not require you to reduce the Arizona credit for increased research activities in a manner similar to the federal reduction method.
- If you reduce the amount of the deduction for qualified research activities in the computation of federal adjusted gross income, Arizona statutes do not allow you to take a subtraction from Arizona gross income for the amount of the expense reduction.
- If you adjust the federal asset basis of capitalized research expenses and reduce the amount of amortization deductible in the computation of federal adjusted gross income, Arizona statutes do not allow you to take a subtraction from Arizona gross income for additional amortization.

NOTE – To claim this credit:

- *Individual taxpayers that did not make the Small Business Income election, complete this credit form and Arizona Form 301, Nonrefundable Individual Tax Credits and*

Part 2 - Current Taxable Year's Regular Credit Calculation (Sole Proprietorships Only)

Beginning with taxable years from and after December 31, 2022, taxpayers may compute the Arizona Credit for Increased Research Activities using the regular computation method or the ASC method.

If the taxpayer is electing the regular credit, or revoking the prior year ASC election, complete Part 2, lines 8 through 23a.

If the taxpayer is electing the ASC, complete Part 12, lines 71 through 84 on page 6 and enter the amount from line 81 on Part 2, line 23b. Proceed to Part 3.

NOTE: Complete this part only if you operate a business as a sole proprietorship and your sole proprietorship incurred qualified research expenses during the taxable year. If you received your credit as the result of a pass through, go to Part 3.

Line 8 Wages for Qualified Services

Enter total wages paid or incurred for qualified services performed in Arizona. Do not include the amount of wages paid to employees that were used in the calculation of the federal work opportunity credit.

NOTE: Wages include any wages paid or incurred to an employee for qualified services performed in Arizona.

Qualified services are: (1) engaging in qualified research; or (2) engaging in the direct supervision, or the direct support of research activities conducted in Arizona that are defined as qualified research.

Qualified research is an investigation undertaken to discover information that is technological in nature. Its application must be intended for use in developing a new or improved business component.

Line 9 Cost of Supplies

Enter the cost of supplies paid or incurred for use in conducting qualified research in Arizona. Supplies include expenditures for any tangible property other than land or improvements to land and property of a character subject to the allowance for depreciation.

Line 10 Rental or Lease Cost of Computers

Enter the amount paid or incurred to rent or lease the right to use computers in conducting qualified research in Arizona.

Line 11 Contract Research Expenses

Enter the total of:

- Seventy-five percent of any amount paid or incurred for qualified research performed in Arizona by a qualified research consortium on your sole proprietorship's behalf. "Qualified research consortium" is any qualifying organization as defined in IRC § 41(b)(3)(C)(ii).
- Sixty-five percent of any amount paid or incurred for qualified research performed in Arizona on your sole proprietorship's behalf, other than such amounts paid to

a qualified research consortium. Prepaid contract research expenses are considered paid in the year the research is actually done.

NOTE: If your contract research expenses were made to an Arizona university under the jurisdiction of the Arizona Board of Regents and those expenses qualify as basic research payments, you may be entitled to an additional credit. See Form 346 for details.

Line 12 Total Research Expenses

Add lines 8 through 11. Enter the total.

Line 13 Average Annual Arizona Gross Receipts

Enter the average annual Arizona gross receipts for the four taxable years preceding the taxable year for which the credit is being determined (the credit year). You may be required to annualize gross receipts for any short taxable year.

If 2023 is the first year you are in business, the average annual Arizona gross receipts for the preceding taxable years is zero. If you have been in business in Arizona for less than four taxable years prior to the credit year, then the average is the sum of annual Arizona gross receipts of the applicable period, divided by the number of taxable years.

Example: XYZ Corporation began business in Arizona in 2021. Its annual Arizona gross receipts for 2021 were \$100,000. Its annual Arizona gross receipts for 2022 were \$200,000. Therefore, XYZ Corporation's average annual Arizona gross receipts for the 2023 credit year is \$150,000 ([(\$100,000 plus \$200,000] divided by 2).

Line 14 Fixed Base Percentage**Fixed-base percentage**

Use the same type of formulas to compute your fixed-base percentage for Arizona as you would for computing your federal fixed-base percentage. The difference is that you use Arizona qualified research expense and gross receipts amounts instead of federal amounts. Other than that, the calculations are the same. Round off the percentage to the nearest one, one hundredth of one percent (four decimal places).

If the percentage computation involves *de minimis* amounts of gross receipts and qualified expenses in a taxable year or short taxable years are involved, the amounts may be annualized or disregarded. Refer to IRC §§ 41(c)(3) and 41(f)(4) for details.

Existing firms and start-up companies

Arizona's definition of whether an organization is an existing firm or a start-up company is similar to the federal definition, except on an Arizona basis:

- Existing firms** - An existing firm is one that had both Arizona gross receipts and Arizona qualified research expenses for at least three taxable years beginning after December 31, 1983, and before January 1, 1989. The fixed-base percentage is the ratio that the aggregate Arizona qualified research expenses for all taxable years beginning after 1983 and before 1989, bears to the aggregate Arizona gross receipts for such taxable years.
- Start-up companies** - A start-up company is one that had both Arizona gross receipts and Arizona qualified research expenses either: (1) for the first time in a taxable year

beginning after December 31, 1983, or, (2) for fewer than three taxable years beginning after 1983 and before 1989.

Fixed-Base Percentages for Taxable Years Beginning After 1993 in Which Start-Up Companies Incurred Arizona Qualified Research Expenses	
<i>Taxable Year After 1993</i>	<i>Percentages for Taxable Years After 1993</i>
1st through 5th	3%
6th	Divide the aggregate Arizona qualified research expenses for 4th and 5th taxable years by the aggregate Arizona gross receipts for 4th and 5th taxable years. Multiply the result by 1/6 (.1667).
7th	Divide the aggregate Arizona qualified research expenses for 5th and 6th taxable years by the aggregate Arizona gross receipts for 5th and 6th taxable years. Multiply the result by 1/3 (.3333).
8th	Divide the aggregate Arizona qualified research expenses for 5th through 7th taxable years by the aggregate Arizona gross receipts for 5th through 7th taxable years. Multiply the result by 1/2 (.50).
9th	Divide the aggregate Arizona qualified research expenses for 5th through 8th taxable years by the aggregate Arizona gross receipts for 5th through 8th taxable years. Multiply the result by 2/3 (.6667).
10th	Divide the aggregate Arizona qualified research expenses for 5th through 9th taxable years by the aggregate Arizona gross receipts for 5th through 9th taxable years. Multiply the result by 5/6 (.8333).
All years after 10th	Divide the aggregate Arizona qualified research expenses for any 5 taxable years selected by the taxpayer from among the 5th through 10th taxable years by the aggregate Arizona gross receipts for the selected taxable years.

If the percentage computation involves *de minimis* amounts of gross receipts and qualified expenses in a taxable year or short taxable years are involved, the amounts may be annualized or disregarded. Refer to IRC §§ 41(c)(3) and 41(f)(4) for details.
