- Average customer phone call wait time (FY 2018): 3.7 minutes
- Average customer phone call wait time (FY 2018 April - June): 54 seconds
- Percentage of online transactions: 75%
- New users registered in AZTaxes.gov: 118,336
- Number of logins to AZTaxes.gov: 3,739,422
- Unclaimed property dollars returned to customers: $64.3 million
I am pleased to provide the fiscal year 2019 update to the Arizona Department of Revenue 2018-2022 Strategic Plan.

The department takes its responsibility of administering Arizona’s multi-billion tax system very seriously as we remained focused on delivering customer service at the speed of business. In fiscal year 2018, the department’s dedicated team processed 6.4 million tax documents and collected a record $17.9 billion for Arizona’s many programs and services.

This update continues the agency’s mission of “Serving Taxpayers!” and remains aligned to its mission of funding Arizona’s future through excellence in innovation, customer service and continuous improvement. ADOR is continuing to identify new ways to deliver better, faster and more cost-effective service for Arizonans.

The FY 2019 Strategic Plan Update, highlights the goals, strategies and performance measures that are critical to the department’s ongoing success.

The four goals that guide ADOR in accomplishing its mission are the following:

**Goal 1 - Optimize Taxpayer Services.** Whether it is over the phone or in person, our department is continuing to find ways to enhance customer service and reduce taxpayer wait times.

**Goal 2 - Accelerate processing.** The implementation of a data capture project, developing corporate e-file and accelerating revenue distribution are a few ways the department is addressing this goal.

**Goal 3 - Maximize Taxpayer Education and Compliance.** The agency is increasing taxpayer compliance through more outreach and education with key stakeholders like businesses, Arizona county and municipal governments, tax professionals and taxpayer groups. We are also working on initiatives to expand e-filing and e-paying.

**Goal 4 - Support & Champion Agency Mission.** An important aspect of this goal is to enhance staff training in all areas across the agency, to improve standard work, enhance consistency and boost retention.

In fiscal 2019, ADOR’s focus remains on deploying results-driven management through the Arizona Management System (AMS), to deliver better, faster and more cost-effective service for Arizonans.

The Arizona Department of Revenue is focused on continuing to enhance customer service and deliver on our ongoing commitment to Arizonans.

David Briant
Director
Our strategy begins with a comprehensive look at ADOR’s ecosystem as an organization — an ecosystem that includes a variety of perspectives and demands that influence our vital mission. We then make an honest assessment of our recent past and current reality, including a brutally honest evaluation of our performance. We refer to this as the “current state.” The Governor’s vision for the state and the agency’s vision together define our desired “future state.” It is by analyzing the gap between our current state and future state that we develop our plan. ADOR has adopted strategic goals to close the gap between the reality of our current challenges and future state vision.

In addition to the goals, ADOR has identified strategic initiatives to help overcome challenges that could keep us from closing the gap. The strategies are to be developed as specific projects to resolve the challenges. The outcomes associated with our goals, as supported by our strategies, and as executed through our projects, will be measured rigorously by our performance measures.

The performance measures ADOR has adopted track success through two primary lenses: the return on investment that taxpayers demand as an outcome of fulfilling our mission — i.e., delivering the revenue that finances Arizona’s future, and customer value in the form of quality service.
