Arizona's Individual and Corporate Income Tax Credit Report is an analysis of tax credits claimed prepared by the Arizona Department of Revenue's Office of Economic Research and Analysis.

Current income tax credits available to Arizona taxpayers are defined in Title 43 of Arizona Revised Statutes under Chapter 10, Article 5 for individuals and Chapter 11, Article 6 for corporations. Income tax credits reduce the taxpayer's tax liability, as opposed to a subtraction which reduces taxable income. Tax credits are either refundable or non-refundable. Although non-refundable tax credits can never exceed a taxpayer's tax liability, the majority of non-refundable tax credits allow the unused amounts to be carried forward to future years.

Refundable tax credits for individual income tax include the property tax credit and the low-income credit for increased excise taxes paid. Refundable tax credits that require approval by the Arizona Commerce Authority that apply to both individual and corporate taxpayers include the research and development credit (subject to a \$5 million annual limit) and the qualified facility credit (with a \$70 million annual limit).

The purpose of this report is to provide a better understanding of impacts associated with income tax credits. The contents include a summary of the individual and corporate income tax credits claimed by tax year including the amount of available carry forward if applicable. Detail is provided for each tax credit regarding the statutory reference, effective date, statutory provisions and the number of taxpayers claiming the credit and the amounts available and used. Due to confidentiality restrictions, certain tax credit data is not releasable.

TOTAL INCOME TAX CREDITS USED OR REFUNDED BY TAX TYPE

Included in this report are tax years 2015 through 2023 for individual and tax years 2014 through 2022 for corporate. For individual, tax year 2023 represents only a portion of the tax year due to pending extension returns. For corporate, tax year 2022 is preliminary based on pending extension returns from fiscal year filers and tax year 2023 will be included in the next published report as the majority of tax credits are claimed on pending extension returns.

¹ Tax year 2023 data for individual tax credits used or refunded is preliminary due to pending extension returns.

² Tax year 2022 data for corporate tax credits used or refunded is preliminary due to pending returns from fiscal year filers to be claimed on extension returns.

ARIZONA INDIVIDUAL INCOME TAX

AFFORDABLE HOUSING CREDIT

- Statute:** Arizona Revised Statutes (A.R.S.) §§ 43-1075 and 43-1163
- Effective Date:** For donations made in taxable years beginning on or after December 31, 2021.
- Provisions:** Beginning with tax year 2022, Arizona allows an individual taxpayer to claim a nonrefundable tax credit for projects in this state that qualify for the federal low-income housing tax credit under section 42 of the Internal Revenue Code that are placed in service from and after June 30, 2022 in an amount equal to at least 50% of the amount of the federal credit allowed in each taxable year during the federal credit. The tax credit may be claimed on either the individual's personal income tax return (Form 140, 140NR, or 140PY) or the Small Business Income tax return, if filing (Form 140-SBI, 140NR-SBI, or 140PY-SBI).
- Credit:** The taxpayer must first apply for an eligibility statement from the Arizona Department of Housing (Housing) certifying that the taxpayer has housing projects in this state that qualify for the federal low-income housing credit and that are placed in service from and after June 30, 2022. To claim the credit, the taxpayer must submit the Eligibility Statement provided by the Housing to the Arizona Department of Revenue (hereinafter "ADOR") with the taxpayer's income tax return. A credit is not allowed until the taxpayer furnishes the required documentation. On notice to ADOR, the credit may be allocated among the partners, members or shareholders as they may agree among themselves regardless of the size of such participant's ownership interest. A partner, member or shareholder may hold an investment exclusively in either the state credits or federal credits allocated to the qualified project.
- Carry forward:** Five years.

No individual income tax returns have been filed claiming this credit.

CONTRIBUTIONS TO QUALIFYING CHARITABLE ORGANIZATIONS CREDIT

Statute: A.R.S. § 43-1088

Effective Date: For taxable years from and after December 31, 1997.

Provisions: A nonrefundable credit is allowed for voluntary cash contributions to a qualifying charitable organization (QCO). A qualifying charitable organization means a 501(c)(3) that spends at least 50% of its budget on services to Arizona residents who receive TANF benefits or low-income residents of this state and their households. Low income individuals are persons whose household income is less than 150% of the federal poverty level or are chronically ill or physically disabled individuals. The credit applies only to contributions to qualifying charitable organizations that exceed the total amount deducted on the taxpayer's Schedule A in the taxpayer's baseline year. The baseline year is the 1996 taxable year if the taxpayer had charitable contributions as itemized deductions on the Schedule A. If the taxpayer did not deduct charitable contributions on the Schedule A in 1996, the taxpayer's baseline year is the first taxable year after 1996 that charitable contributions were deducted on the Schedule A.

For taxable years 2009 and later, the baseline year requirement was eliminated. However, to claim the credit for taxable year 2009 and later the taxpayer must claim itemized deductions on the return filed for the year in which the credit is claimed.

For taxable years 2013 and later, the itemized deduction requirement was eliminated and both standard deduction and itemized deduction taxpayers are now eligible to claim. Also, the credit was expanded to include qualified foster care charitable organizations (QFCO). QFCOs must meet all requirements of a QCO and in addition a QFCO must provide ongoing services to at least 200 foster children in Arizona and spend at least 50% of its budget on ongoing services to foster children in Arizona.

For taxable years 2016 and later, a separate credit is allowed for voluntary cash contributions to a QCO and QFCO.

Credit: The credit is the amount of the voluntary cash contribution, not to exceed \$400 for married filing joint filers and \$200 for all other filing statuses. If donating to a QFCO the credit is not to exceed \$800 for married filing joint filers and \$400 for all other filing statuses.

For taxable years 2016 and later, the QCO credit is the amount of voluntary cash contribution, not to exceed \$800 for married filing joint filers and \$400 for all other filing statuses. The QFCO credit is the amount of voluntary cash contribution, not to exceed \$1,000 for married filing joint filers and \$500 for all other filing statuses.

Carry forward: Five years.

For taxable years 1998 through 2001, tax returns were reviewed to obtain the contribution, total credit amount, credit amount used and carry forward amounts. For taxable years 2002 through 2008 and 2010-2013, the total credit and used amounts were estimated. Due to taxpayers claiming multiple credits, the carry forward amounts were not estimated. For taxable year 2009, return data was pulled to determine actual amounts. Beginning with 2014, additional credit data has been captured and an estimate is provided for carry forward amounts.

Prior to tax year 2016, the QFCO credit was a part of the QCO credit. Starting in 2016, the QFCO credit is reported as a separate credit.

DEFENSE CONTRACTING CREDIT

Statute:	A.R.S. § 43-1165 and 1166
Effective Date:	For taxable years from and after September 30, 1992.
Repealed:	Certification by the Arizona Department of Commerce was required by June 30, 2001, valid for five taxable years. No new credits could be claimed after tax year 2006.
Provisions:	The nonrefundable credit is for a net increase in employment of qualified employees under a United States Department of Defense contract or for a net increase in private commercial employment by a qualified defense contractor due to full-time equivalent positions transferred during the taxable year from exclusively defense related activities to exclusively private commercial activities. A tax credit is also allowed for a portion of property taxes paid on class 3 (commercial or industrial) property.
Credit:	For net increases in employment, the credit is \$2,500 for each first-year full-time equivalent position created, \$2,000 for the second year, \$1,500 for the third year, \$1,000 for the fourth year, and \$500 for the fifth year of full-time employment. The credit for property tax paid is determined first by calculating 40% of the property tax if more than 900 new full-time equivalent positions are created, 30% of property taxes for 601 to 900 positions, 20% for 301 to 600 positions, and 10% for up to 300 positions. This amount is then multiplied by the percentage determined by dividing the taxpayer's total gross income from USDOD contracts apportioned to Arizona by the taxpayer's total gross income from all sources apportioned to Arizona.
Carry forward:	Five years.
