STATISTICS

Summary:

Historial Contributions

Over the last ten years there has been an average growth rate of around 4% in contributions received. Donations received over the last five years average around \$51.0 Million. In calendar years 2015 and 2016 spending has been higher than the amount of contributions received by using unspent monies from prior years. Beginning in 2016, the taxpayer had the option to claim contributions made after December 31 but on or before April 15 on their 2015 return or 2016 return. This may explain the decrease in 2015 from the \$51.0 million in calendar years 2013 and 2014 and the higher than average rate increase over year 2015.

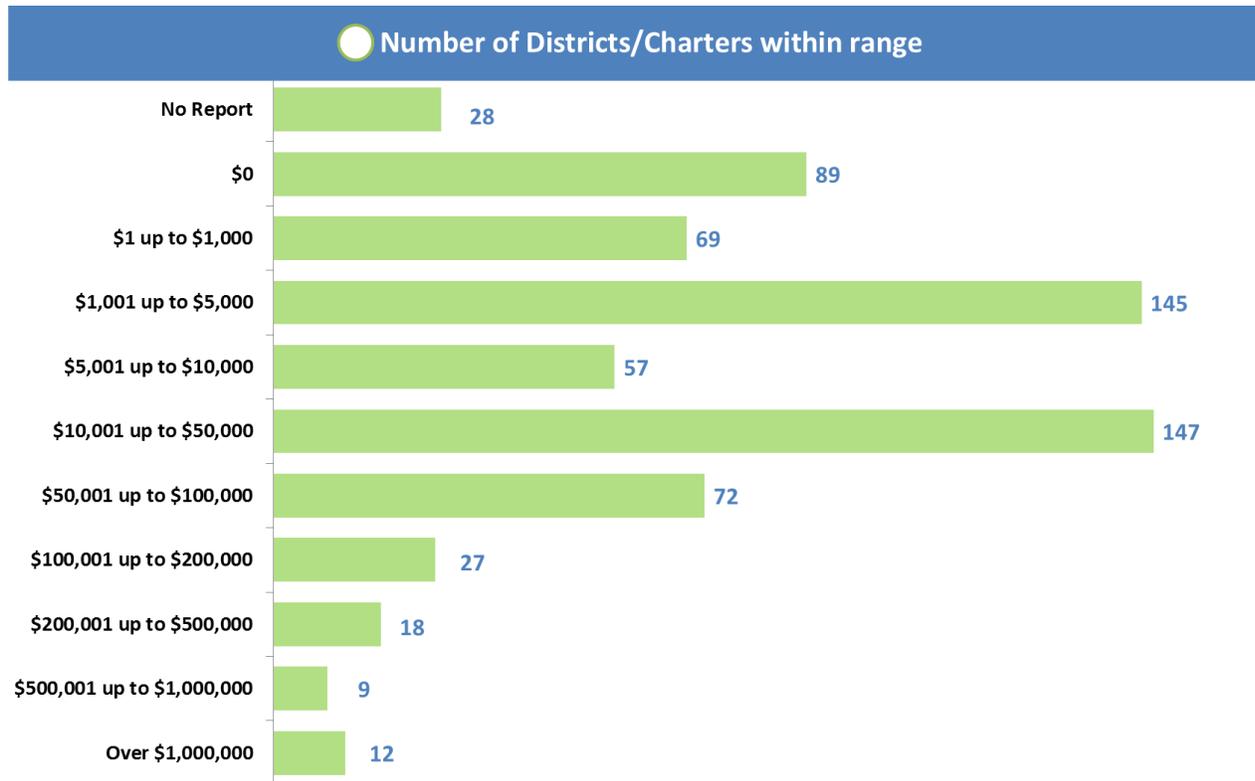

For calendar year 2016, public schools including charter and districts reported receiving \$53,017,994 in fees or cash contributions from 314,683 donors for the support of extracurricular activities, character education programs, standardized testing or CPR. This represents an increase of \$4,955,708 or 10.3% compared to the \$48,062,286 reported for 2015. The average fee or cash contribution per donor was \$168 for 2016 compared to an average of \$183 per donor for 2015. Public schools reported spending \$56,659,264 in calendar year 2016, an increase of \$5,146,845 or 10% compared to the \$51,512,419 spent in 2015.

POLICY BACKGROUND

Statute

Arizona Revised Statute § 43-1089.01 provides a non-refundable individual income tax credit for fees and cash contributions paid to public schools in Arizona for the support of extracurricular activities, character education programs. The addition of standardized testing fees for college credit or readiness, preparation courses and material for standardized testing or career and technical education industry certification assessment was added in 2015. The addition of cardiopulmonary resuscitations (CPR) training was added in 2016. This credit is only available to individuals.¹ Beginning in 2016, the taxpayer has the option to claim contributions made after December 31 but on or before April 15 on their 2016 return or 2017 return.

Rates

The credit is equal to the amount of fees paid or amount contributed up to \$200 for single or heads of household taxpayers and up to \$400 for married taxpayers that file a joint return.² The maximum allowable credit of \$200 was increased to \$250 for married taxpayers filing a joint return for taxable year 2001; to \$300 for tax year 2005; and to \$400 for taxable year 2006 and thereafter.

Qualifying Expenditures

The school must provide instruction in grades kindergarten through 12. Contributions made or fees paid to a non-governmental school, a pre-school, a community college, a university, or a public school located outside of Arizona does not qualify for this credit.

- Extracurricular activities are school sponsored activities that require enrolled students to pay a fee in order to participate. The activities must supplement the school's education program. Extracurricular activities may include use of band uniforms, use of equipment or uniforms for varsity athletics, use of scientific laboratory equipment or materials, or in-state or out-of-state trips that are solely for competitive events. Extracurricular activities do not include any senior trips or events that are recreational, amusement or tourist activities.
- A character education program is a program defined in Arizona Revised Statute § 15-719. At a minimum, the character education program must include 1) instruction in the definition and application of at least six of the character traits (truthfulness, responsibility, compassion, diligence, sincerity, trustworthiness, respect, attentiveness, obedience, orderliness, forgiveness, virtue, fairness, caring, citizenship and integrity), 2) use activities, discussions and presentations to illustrate and reinforce the application of the character traits and 3) presentations by teachers or mentors who demonstrate the character traits.
- Standardized testing fees for college credit or readiness are fees for testing paid to a school for the use of a widely recognized and accepted educational organization such as SAT, PSAT, ACT, advanced placement, international baccalaureate diploma test and other similar tests that are recognized and accepted by colleges and universities in the United States. The fees include preparation courses and materials used for standardized testing.
- Career and Technical Education industry certification assessment are fees paid to a school for career and technical education industry certification assessment. This is an assessment

¹ Corporations may not claim this credit. A partnership may not pass the credit through to its partners. An S corporation may not pass the credit through to its shareholders.

² If married taxpayers file separate returns, each spouse may claim only half of the credit that would have been allowed on a joint return.

for preparation programs (CTE) that provide students with a pathway to postsecondary education and careers.

- Cardiopulmonary Resuscitation (CPR) Training the program must be based on the current national emergency CPR guidelines. If this instruction results in a CPR certification it must be provided by an authorized CPR trainer.

Reporting Requirements

Public Schools must report on a calendar year basis to the Arizona Department of Revenue by February 28 of each year indicating the total number of donors, the total dollar amount of fees and contributions received and the amount spent by the school. Beginning in 2016, the taxpayer has the option to claim contributions made after December 31 but on or before April 15 in either the previous tax year or in the year the contribution was made. For example a taxpayer may claim a credit made between January 1 to April 15, 2016 on their 2015 return or 2016 return. However, the public school continues to report contributions on a calendar year basis. The school must also report the amount spent categorized by specific extracurricular activity or character education program.

INFORMATION

Appendix I

The first appendix lists by school district the total number of donors, the average fee or cash contribution per donor, the total amount of fees or cash contributions received in 2016 and in 2015, the percentage change from the amount received last year, the ranking of total amount received for 2016 and for 2015, the total amount spent in 2016 and for 2015, and the percentage of dollars spent to the total amount received for 2016.

Appendix II

The second appendix lists the same information as noted above for charter school holders.

Data:

The data source is from the Public School Report(s) filed by the each school(s) or school district. Twenty-eight school districts or charter holders failed to submit a report for 2016 (reference Page 14 for a list of these schools).

For additional information or questions, contact Elizabeth St. Clair at the Arizona Department of Revenue at 602-716-6322.
