FISCAL YEAR 2014/15 ARIZONA TAX EXPENDITURE REPORT

INTRODUCTION

The Arizona Tax Expenditure Report is a study prepared for the Governor and the Legislature by the Arizona Department of Revenue's Office of Economic Research and Analysis. The report is prepared in compliance with A.R.S. § 42-1005.

Tax expenditures are provisions within the law designed to encourage certain kinds of activity or to aid taxpayers in certain categories. These provisions are generally known as exemptions, exclusions, deductions, subtractions and credits. Such provisions result in a loss of tax revenues, thereby reducing the amount of revenues available for state (and, in some circumstances, local) programs. In effect, the fiscal impact of implementing a tax expenditure would be similar to a direct expenditure of state funds. This report provides a list of tax expenditures and, whenever possible, details the approximate cost of exempting certain types of income, goods, services or property from their respective tax statutes.

The purpose of this report is to provide a better understanding of costs associated with existing tax exemptions, exclusions, deductions, subtractions and credits. There are sections on every tax imposed in Arizona. Each section contains statutory provisions for that specific tax type. The analysis includes an explanation of the provision as well as the approximate cost of that provision where possible. Information in sections pertaining to tax types not administered by the Arizona Department of Revenue is submitted by the agency administering the tax. Any cost estimates presented are provided by that agency.

ASSUMPTIONS

This report does not contain any judgment regarding the merit, desirability, importance or usefulness of a tax expenditure. The Legislature and the Governor determine the taxation environment that they wish to create in Arizona and formulate law to create the corresponding policy. All tax expenditures were conscious public policy decisions at the time of enactment.

The costs associated with the specific provisions are the estimated impact of that provision based upon the information available for the stated fiscal or calendar year. There is no consideration of altered demand resulting from the tax expenditure. There is also no consideration of dynamic fiscal impacts resulting from a reduced tax.

The summary page(s) at the end of each section provides a total value of the tax expenditure. ***This total value is a general guide and should not be used in isolation from the rest of the expenditure amounts.*** In fact, the expenditures for a particular tax can often not be added to reach a total. The presence or absence of one expenditure for a tax type can directly affect the value of another expenditure for that same tax type.

AIRCRAFT LICENSE TAX EXPENDITURES¹ - FISCAL YEAR 2014/15

A license tax is imposed on aircraft operating in Arizona at the rate of 0.5% of the average fair market value of the particular make, model and year of the aircraft, but not less than \$20. The proceeds from this tax are deposited into the state aviation fund.

AIRCRAFT LICENSE TAX EXEMPTIONS

A.R.S. § 28-8322: Aircraft operated by an airline company and regularly scheduled for the primary purpose of carrying persons or property for hire in interstate, intrastate or international transportation are exempt from tax. Aircraft owned by a nonresident who bases the aircraft in this state for a period of not more than 90 days in any one calendar year, if the aircraft is not engaged in interstate commercial activity, is also exempt from tax.

Calculating the tax value of these tax expenditures would require knowing the average fair market value of every aircraft carrying persons or property that stops at an airport in Arizona. Therefore, the value of this tax expenditure is not quantifiable.

A.R.S. § 28-8323: Aircraft owned and operated exclusively in the public service by the federal government, by Arizona or by any political subdivision of Arizona or by the civil air patrol is exempt from tax.

The average fair market value of aircraft owned by the federal government and operated in Arizona is unknown. It is known that there were 103 aircraft owned by the Arizona Department of Transportation, the Arizona Department of Public Safety, various Arizona counties and cities and the civil air patrol in fiscal year 2014/15. The average fair market value of each aircraft is \$796,246 which equates to a tax value of \$410,067 for this tax expenditure.

A.R.S. § 28-8323B: Aircraft owned and held by a bona fide aircraft dealer solely for the purpose of sale, as long as these aircraft are registered within ten days of the dealer's purchase date are exempt from tax.

There were 48 aircraft of this type registered by bona fide aircraft dealers in Arizona in fiscal year 2014/15. The tax value of these aircraft was approximately \$147,718.

¹ Any figures presented for Aircraft License Tax Expenditures were provided by the Arizona Department of Transportation.

PREFERENTIAL TAX RATES

A.R.S. § 28-8336: The license tax rate for a nonresident who bases his aircraft in Arizona for more than 90 days but less than 210 days in a given calendar year, provided that the aircraft is not engaged in any intrastate commercial activity, is equal to 0.1% of the average fair market value of the particular make, model and year of aircraft. This tax rate is 20% of the tax rate imposed on resident-owned aircraft.

In fiscal year 2014/15, there were 207 nonresident aircraft based in Arizona. The total aircraft license tax paid by nonresidents falling into this category was \$208,129. The value of this expenditure is calculated by multiplying this figure by four, yielding the foregone tax collections allowed by the preferential rate of \$832,516.

A.R.S. § 28-8337: Aircraft in storage or being repaired are charged a license tax of \$20.

There are 434 aircraft which have been granted this license tax rate with a fair market value of \$651,014,756. The tax value of this preferential license tax is \$3,246,394 which is the total fair market value multiplied by 0.5% less \$20 per aircraft.

A.R.S. § 28-8338: The annual license tax for a salvage aircraft that is in storage or that is being restored is \$5.

There are 24 aircraft registered under this provision. Assuming no market value for salvage aircraft, the tax value of this tax expenditure is the difference between the \$20 minimum license tax imposed on all other aircraft and the \$5 minimum license tax imposed on these aircraft, or \$360.

A.R.S. § 28-8339: There is a \$20 license tax for an antique, classic, warbird, glider, experimental, homebuilt or balloon aircraft.

There are 4,126 aircraft registered in Arizona under this provision, with a total market value of \$13.60 million. The tax value of this tax expenditure is the total market value multiplied by 0.5% less the \$20 license tax paid per aircraft, or \$0.

A.R.S. §§ 28-8340 and 28-8341: Maintenance aircraft owned by a nonresident and manufacturer's aircraft are required to pay an aircraft license tax of \$20.

There are 10 nonresident-owned maintenance aircrafts and 1 manufacturer's aircraft registered in Arizona with a total market value of \$69,644,000. The tax value of this tax expenditure can be calculated by multiplying the total market value by 0.5% and subtracting the \$20 per aircraft tax paid, or \$348,000.

AVIATION FUEL TAX EXPENDITURES⁴ - FISCAL YEAR 2014/15

An aviation fuel tax is imposed on every supplier for each gallon of aviation fuel processed, refined, manufactured, produced, blended or compounded in Arizona by the supplier or imported by the supplier, whether in the original package or container in which it was imported or otherwise. In order to qualify for exemptions on certain types of aviation fuel, the taxpayer must file for a refund. The fuel tax rate is 5¢ per gallon. Revenue from the aviation fuel tax is deposited in the Aviation Fund.

AVIATION FUEL TAX EXEMPTIONS

A.R.S. § 28-5610: Aviation fuel moving in interstate commerce, not destined or diverted to a point within Arizona is exempt from tax.

There is no requirement for reporting this information; therefore, the tax value of this exemption is unknown.

A.R.S. § 28-5610: Also exempt from aviation fuel in this statute is aviation fuel sold to the United States armed forces for use in ships or aircraft or for use outside of Arizona.

The amount of aviation fuel purchased by the United States armed forces is not reported so the tax value is unknown.

A.R.S. § 28-5610A: Aviation fuel exported from Arizona is exempt from aviation fuel tax.

If such fuel were subject to taxation in fiscal year 2014/15, an additional \$147,587 in aviation fuel tax would have been received.

OTHER AVIATION FUEL TAX REDUCTIONS

A.R.S. § 28-5611A: A taxpayer may request a refund for aviation fuel for use in applying seeds, fertilizer or pesticides.

Refunds made in fiscal year 2014/15 were \$1,564

A.R.S. § 28-5611A: A taxpayer may request a refund for losses of fuel due to fire, theft or other accident.

No requests for refunds were made for this in fiscal year 2014/15.

⁴ Any figures presented for Aviation Fuel Tax Expenditures were provided by the Arizona Department of Transportation.

BINGO TAX EXPENDITURES- FISCAL YEAR 2014/15

The tax on state-licensed bingo operations is based on a multi-tiered licensing structure. There are three classes of bingo licenses, each of which has a different tax rate. Each class' tax rate is based on bingo receipts. All bingo tax collections are deposited into the general fund.

BINGO TAX EXEMPTIONS

A.R.S. § 5-414: Class A licensees (for whom gross receipts do not exceed \$15,600 per year) are taxed at 2.5% of their adjusted gross receipts. Adjusted gross receipts equals gross receipts less the amount paid for prizes. Therefore, prize money is exempt from taxation for this class of bingo licensees.

In fiscal year 2014/15, Class A licensees subtracted \$2.84 million from gross receipts. At a 2.5% tax rate, the prize money represents \$70,960 in forgone revenue.

PREFERENTIAL TAX RATES

Bingo receipts are taxed at one of three rates, dependent upon the level of gross receipts.

Class A	Gross receipts less than or equal to \$15,600	2.5% of adjusted gross receipts
Class B	Gross receipts \$15,601 to \$300,000	1.5% of gross receipts
Class C	Gross receipts greater than \$300,000	2.0% of gross receipts

This is a preferential rate structure because different tax rates are imposed on similar taxpayers based on criteria set in statute. This preferential rate structure allows taxpayers with lower gross receipts to be taxed at a lower rate.

The impact of taxing all bingo receipts at one of the three rates in use is possible but unrealistic. If a uniform rate were imposed, it is probable that the uniform rate would be an effective tax rate among all licensees, making the fiscal impact revenue neutral. Given that legislative action cannot be predicted, we will point out the preferential tax rate structure in law but will not attempt to attach a revenue impact.

BOXING AND MIXED MARTIAL ARTS TAX EXPENDITURES⁸
FISCAL YEAR 2014/15

Any person who promotes a boxing or mixed martial arts (MMA) contest in Arizona must pay a 4% tax on the gross receipts of such match or exhibition, after deduction of city, state and federal taxes. The tax is paid to the Department of Racing, which collects for the Arizona Boxing Commission. Gross receipts are defined as receipts from the face value of tickets sold.

BOXING AND MMA TAX EXEMPTIONS

A.R.S. § 5-104.02A: Tickets issued as complimentary by the promoter of a boxing or MMA match are exempt from taxation as long as the number of complimentary tickets does not exceed 2% of the total number of tickets issued or 75 tickets, whichever is greater.

During fiscal year 2014/15, 16 Boxing events and 21 Mixed Martial Arts events were held. At each event, up to 75 complimentary tickets were issued with an average price of \$30 each. Had the value of these tickets been taxable, an additional \$90 for each Boxing and MMA Event would have been received.

CORPORATE INCOME TAX EXPENDITURES – FISCAL YEAR 2014/15

With the exception of credits, no information is available on corporate income tax expenditures at this time. This publication will be updated as soon as the Corporate Income Tax Expenditures section is complete.

CORPORATE INCOME TAX CREDITS

A tax credit reduces corporate tax liability, as opposed to a subtraction which reduces taxable income. Most tax credits that currently exist in Arizona corporate tax law are nonrefundable; any credit amount greater than a firm's tax liability will not be refunded. The unused credit, in most cases, can then be carried forward for use in future tax years. The following corporate credits were in effect in tax year 2013.

A.R.S. § 43-1161: Enterprise zone credits are income tax credits provided for non-retail businesses located in an enterprise zone established under Arizona law who have a net increase in employment of qualified employees, as certified by the Arizona Commerce Authority. A maximum of \$500 per each net new employee can be claimed in the first or partial year of employment. In the second year of continuous employment, a maximum of \$1,000 per net new employee can be claimed. The limit in the third year of continuous employment is \$1,500 per net new employee. A sunset date was set in statute of June 30, 2011. Carry forward is allowed for 5 years after that date.

A.R.S. § 43-1161: This statute now governs the new employment credit which is for net increases in qualified employment positions. To qualify for the credit, the taxpayer must invest at least \$5 million in capital investment and create at least 25 new qualified positions in an Arizona city or town with a population of 50,000 or more, or invest at least \$1 million in capital investment and create at least 5 new qualified positions in any other Arizona location. The amount of credit is determined and authorized by the Arizona Commerce Authority.

A.R.S. § 43-1162 and 43-1076.01: These statutes govern the credit for businesses that enhance or sustain forest health, sustain or recover watershed or improve public safety or for training new qualified employment positions, as certified by the Arizona Commerce Authority.

A.R.S. § 43-1163 and 43-1163.01: A nonrefundable, transferable credit is allowed for a motion picture production company that produces motion pictures completely or partially in Arizona and for the construction of an eligible infrastructure. The taxpayer must receive pre-approval and post-approval from the Arizona Commerce Authority. This credit had a repeal date of taxable years beginning from and after January 1, 2011 when enacted. The carry forward period available is 5 years.

A.R.S. § 43-1164: A credit is provided for installing one or more solar energy devices for commercial or industrial purposes in the taxpayer's trade or business. The credit is 10% of the

installed cost of the device, not to exceed \$25,000 per taxpayer per building or \$50,000 total in a year. This credit must be approved by the Arizona Commerce Authority.

A.R.S. § 43-1164.01: A refundable credit is allowed for expanding or locating qualified renewable energy operations in Arizona. The credit is up to 10% of the taxpayer's total capital investment in Arizona if 1.5 new full-time employment positions are created for each \$500,000 of new capital investment for manufacturing operations or 1 new full-time employment position is created for each \$200,000 in capital investment for headquarters. For other qualifying renewable energy investment, the credit is 10% of \$500,000 for each 1.5 new full-time employment positions created in manufacturing operations or 10% of \$200,000 for each 1 full-time employment position created for headquarters, neither of which can exceed 10% of the taxpayer's total capital investment. Approval from the Arizona Commerce Authority is required.

A.R.S. § 43-1164.02: The solar liquid fuel research and development credit is for increased research activities related to solar liquid fuel. The credit is 40% of the excess of Arizona qualified research expenses over a base amount.

A.R.S. § 43-1164.03: A credit is allowed for production of electricity by a qualified energy generator that produces energy using solar light, solar heat, wind or biomass. Approval from the Arizona Department of Revenue is required to take the credit. No more than \$20 million can be approved in a calendar year.

A.R.S. § 43-1164.04: A refundable credit is allowed for expanding or locating a new qualified facility in Arizona. A qualified facility is a facility that devotes at least 80% of the property and payroll at the facility to qualified manufacturing, qualified headquarters or qualified research. Approval from the Arizona Commerce Authority is required to take the credit. No more than \$70 million (in conjunction with the renewable energy industry credit) can be approved in a calendar year and no more than \$30 million per taxpayer.

A.R.S. § 43-1167: The military reuse zone credit is a tax credit for net increases in employment by the taxpayer of full-time employees working in a military reuse zone who are primarily engaged in manufacturing, assembling or fabricating aviation or aerospace products. The amount of the credit is determined by a dollar amount allowed for net new employee positions other than dislocated military base employees and by a dollar amount allowed for net new dislocated military base employee positions.

A.R.S. § 43-1167.01: A credit is allowed to each taxpayer whose employee is a member of the Arizona national guard if the employee is placed on active duty. The amount of the credit is \$1,000 for each employee placed on active duty.

A.R.S. § 43-1168: The research and development tax credit is calculated based on calculations done for the federal research and development tax credit. The amount of the credit is based on the excess of the qualified research expenses for the taxable year over a base amount. Beginning with tax year 2010, taxpayers employing fewer than 150 persons may have their

research and development credit refunded, to the extent that it exceeds tax liability. Approval for the refundable credit by Arizona Commerce Authority is required. Beginning in tax year 2012, an additional credit for research payments made to a university under the jurisdiction of the Arizona Board of Regents, as certified by the Arizona Department of Revenue.

A.R.S. § 43-1169: A tax credit is provided for expenses incurred in constructing a qualified environmental technology manufacturing, producing or processing facility. The amount of the credit is 10% of the amount spent during the taxable year to construct the facility.

A.R.S. § 43-1170: The pollution control device credit is a tax credit for expenses incurred to purchase real or personal property that is used in Arizona in the taxpayer's trade or business to control or prevent pollution. The amount of the credit is the lesser of 10% of the purchase price or \$500,000.

A.R.S. § 43-1170.01: A credit is allowed for expenses that a taxpayer (involved in the commercial production of livestock, livestock products or agricultural, horticultural, viticultural or floricultural crops or products) incurs to purchase tangible personal property that is primarily used in the taxpayer's trade or business in Arizona to control or prevent pollution.

A.R.S. § 43-1175: An income tax credit is allowed for net increases in qualified employment of recipients of temporary assistance for needy families who are Arizona residents. A maximum of \$500 per each net new employee can be claimed in the first year of employment, \$1,000 in the second year of employment and \$1,500 in the third year.

A.R.S. § 43-1176: A credit is allowed for costs incurred in installing an electric vehicle recharge outlet and for solar hot water plumbing stub outs in one or more houses in Arizona constructed by the taxpayer. The amount of the credit is equal to the lesser of \$75 or the installation cost for each stub out or recharge outlet in each separate house or dwelling unit.

A.R.S. § 43-1178: A credit is allowed for 30% of transaction privilege taxes paid on coal purchased in Arizona and consumed in generating electric power.

A.R.S. § 43-1181: The school site donation credit is for donation of real property and improvements to a school district or charter school for use as a school or a site for the construction of a school. The amount of the credit is 30% of the value of real property and improvements donated.

A.R.S. § 43-1182: A credit is allowed for installing or including in one or more houses or dwelling units in Arizona and constructed by the taxpayer, a water conservation plumbing stub out that collects all graywater sources that end at a plumbing stub out that is separate and distinct from the regular plumbing system. This credit had a repeal date of taxable years beginning from and after January 1, 2012 when enacted. The carry forward period available is five years.

A.R.S. § 43-1183: A credit is allowed for cash contributions to a school tuition organization, as approved by the Arizona Department of Revenue.

A.R.S. § 43-1184: A credit is allowed for cash contributions to a school tuition organization for scholarships to students with disabilities or displaced students, as approved by the Arizona Department of Revenue.

A.R.S. § 43-1185: An income tax credit is allowed for employers with at least two but no more than 50 employees that provide qualified health plans or contributions to health savings accounts for its employees who are Arizona residents. The credit amount is \$360 for every employee who is enrolled in the qualified health insurance plan.

When reviewing the credit data, it is important to mention two points. First, corporate tax information for a given tax year will change over time. Late returns are filed, corporations are audited, amended returns are filed, retroactive legislation is enacted, etc. Therefore, figures stated here will change over time and figures cited in previous years will not match what is presented here. Second, information cannot be revealed about certain credits claimed without breaching confidentiality. If less than three firms claim a credit **or** if one firm owns more than 90% of the total credit amount claimed **or** if providing statistics on one credit would result in confidential information being divulged about other credits, then that information cannot legally be released.

Preliminary data for tax year 2013 is shown in the following table. For tax year 2013, corporations claimed 466 corporate income tax credits and used a total of \$132.9 million in credits to offset taxes. Asterisks indicate instances in which release of information would breach confidentiality laws.

FIDUCIARY INCOME TAX EXPENDITURES – FISCAL YEAR 2014/15

Arizona imposes fiduciary income tax on trusts and estates. The taxability of the income is determined by the residence of the fiduciary, beneficiary, or deceased taxpayer. For estates, the tax applies to the entire taxable income if the deceased taxpayer was an Arizona resident. The fiduciary or beneficiary residence is immaterial. In contrast, for trusts, the tax applies to the entire taxable income when the fiduciary or beneficiary is an Arizona resident.

Arizona taxable income is calculated beginning with federal taxable income. By conforming Arizona law to the Internal Revenue Code, subtractions allowed under federal law in calculating federal taxable income are allowed under Arizona law. From federal taxable income, certain additions, subtractions and exemptions are allowed to reach Arizona taxable income. After calculating tax liability, fiduciary taxpayers may reduce their tax liability by using a credit for taxes paid to other state or countries or a clean elections credit.

Fiduciary income tax is deposited into the general fund. However, 15% of the tax is distributed to cities and towns two years after the year in which it was collected. For example, 15% of tax collected in fiscal year 2012/13 will be distributed to incorporated cities and towns in fiscal year 2014/15. Therefore, only 85% of the tax collected, or of the tax value of any expenditure, is actually available for the state's use. This fact should be kept in mind when reviewing the reported tax value of the various subtractions, exemptions and credits.

SUBTRACTIONS ALLOWED IN THE CALCULATION OF FEDERAL TAXABLE INCOME

The starting point for calculating Arizona fiduciary income tax liability is federal taxable income as calculated on the federal form 1041 (U.S. Fiduciary Income Tax Return). The Arizona legislature must approve legislation to conform to the definition of federal taxable income each year. In conforming to the definition of federal taxable income, Arizona accepts the subtractions from gross income allowed by the federal government. These subtractions include:

- Deduction for interest paid by the estate or trust on amounts borrowed by the estate or trust or on debt acquired by the estate or trust. This includes an investment interest (subject to limitations), qualified residence interest, and any interest payable on any unpaid portion of the estate tax attributable to the value of a reversionary or remained interest in property.
- Deductible taxes, including state income tax or state and local general sales tax; real property tax; and generation-skipping transfer tax imposed on income distributions.
- Deductible fees paid to the fiduciary for administering the estate or trust during the tax year.
- Charitable deduction.
- Attorney, accountant and return preparer fees.
- Other deductions, such as amortizable bond premiums, casualty and theft losses, net operating loss deduction, up to 6% of the fiduciary's share of qualified domestic

production activities and the fiduciary's share of amortization, depreciation and depletion not claimed elsewhere.

- Miscellaneous itemized deductions in excess of 2% AGI.
- Net operating loss deduction.
- Income distribution deduction.
- Estate tax deduction.
- \$600 exemption for estates. \$300 exemption for trusts in which all income must be distributed currently. \$100 exemption for all other trusts.

It is not possible to calculate the tax value of these subtractions. Information from the Internal Revenue Service would be required to determine the value and this information is not readily available.

ARIZONA SUBTRACTIONS FROM FEDERAL TAXABLE INCOME

The Arizona fiduciary income tax return lists the following specific items that can be subtracted from federal taxable income to reach adjusted gross income attributable to Arizona:

A.R.S. § 43-1332 (1): A negative Arizona fiduciary adjustment from another estate or trust is used if Schedule K-1 indicates a negative difference between the federal and state distributable income.

A.R.S. § 43-1022 (6): Interest income received on U.S. obligations less any interest on indebtedness or other related expenses, and deducted in arriving at Arizona gross income, which were incurred or continued to purchase or carry such obligations.

A.R.S. § 43-1022 (7): The amount of any income tax refunds received from states other than Arizona and included as income.

The remaining subtractions on the Arizona fiduciary tax form are entered in aggregate on the "other subtractions from federal taxable income" line. The following is a list of these:

A.R.S. § 43-1022 (2): Benefits, annuities and pensions totaling not more than \$2,500 received from the any retirement system or plan established by federal law or the Arizona state retirement system and retirement plan, the corrections officer retirement plan, the public safety personnel retirement plan, the elected officials' retirement plan, an optional retirement program established by the Arizona Board of Regents, an optional retirement program established by an Arizona community college district board, or a retirement plan established for employees of a county, city or town in Arizona.

A.R.S. § 43-1022 (8): Annuity income included pursuant to §72 of the IRC if the first payment with respect to such annuity was received prior to December 31, 1978.

A.R.S. § 43-1022 (21): The amounts authorized by A.R.S. § 43-1027 for converting to qualified wood stoves, wood fireplaces or gas-fired fireplaces.

A.R.S. § 43-1022 (23): The amount by which a net operating loss carryover or capital loss carryover allowable pursuant to § 43-1029(F) exceeds the net operating loss carryover or capital loss carryover allowable pursuant to §1341(b)(5) of the IRC.

A.R.S. § 43-1022 (15): The portion of any wages or salaries paid or incurred by the taxpayer equal to the amount of the federal work opportunity credit, the empowerment zone employment credit, the credit for employer-paid social security taxes on employee cash tips and the Indian employment credit that the taxpayer received under §§ 45A, 45B, 51(a) and 1396 of the IRC.

A.R.S. § 43-1022 (22): With respect to individual medical savings accounts established pursuant to A.R.S. § 43-1028, the account holder may subtract the amount of contributions made by the employer, to the extent that these contributions are included in the taxpayer's federal adjusted gross income, and the amount deposited by the taxpayer in the account during the year.

A.R.S. § 43-1022 (14): The amount allowed by A.R.S. § 43-1025 for contributions of agricultural crops to charitable organizations.

A.R.S. § 43-1022 (5): The amount of income on an installment receivable which is recognized pursuant to the IRC and which has already been recognized on the death of the taxpayer for purposes of this title for tax years ending before January 1, 1990.

A.R.S. § 43-1022 (26): The amount authorized by A.R.S. § 43-1030 relating to holocaust survivors.

A.R.S. § 43-1022 (27): The amount of depreciation allowable per § 167(a) of the IRC calculated as if bonus depreciation for eligible properties had not been claimed for federal purposes.

A.R.S. § 43-1022 (28): For property sold or otherwise disposed of, a subtraction is allowed for the difference in basis for any asset for which federal bonus depreciation had been claimed.

A.R.S. § 43-1022 (3): When the estate or trust is the beneficiary of another estate or trust, the beneficiary's share of the trust or estate income recognized under the IRC may be subtracted.

A.R.S. § 43-1022 (1): Exemptions are allowed for blind persons (\$1,500), persons over 65 years of age (\$2,100), dependents (\$2,300), and qualifying ancestors that live with the taxpayer and require assistance with activities of daily living (\$10,000).

A.R.S. § 43-1022 (4): The amount of any distributions from an individual retirement account as provided for in §408 of the IRC or from a qualified retirement plan of a self-employed individual as provided for in §401 of the IRC to the extent that total adjustments in all tax years do not exceed the total of all contributions made by the taxpayer to such plans prior to December 31, 1976 which were included in computing Arizona taxable income.

A.R.S. § 43-1022 (9): The excess of a partner's share of income required to be included under §702(a)(8) of the IRC over income required to be included under chapter 14, article 2 of title 43.

A.R.S. § 43-1022 (10): The excess of a partner's share of partnership losses determined pursuant to chapter 14, article 2 of title 43 over losses allowable under §702(a)(8) of the IRC.

A.R.S. § 43-1022 (11): The amount by which the adjusted basis of all property which is held for the production of income and which is sold or otherwise disposed of during the taxable year, other than depreciable property used in a trade or business, computed pursuant to title 43 and the income tax act of 1954, as amended, exceeds the adjusted basis of such property computed pursuant to the IRC.

A.R.S. § 43-1022 (12): The amount allowed by § 43-1024 for amortization by a qualified defense contractor certified by the Arizona Department of Commerce under § 41-1508, of a capital investment for private commercial activities.

A.R.S. § 43-1022 (13): The amount of gain included on the sale or other disposition of capital investment that a qualified defense contractor has elected to amortized pursuant to § 43-1024.

A.R.S. § 43-1022 (16): The amount of winnings less than \$5,000 in a taxable year from any of the state lotteries, except that all such winnings before March 22, 1983, including periodic distributions from such winnings made after March 22, 1983, may be subtracted.

A.R.S. § 43-1022 (17): The amount of mining exploration expenses determined pursuant to §617 of the IRC which have been deferred in a taxable year ending before January 1, 1990 and for which a subtraction has not been previously made.

A.R.S. § 43-1022 (18): The amount of Social Security and railroad retirement benefits included in federal taxable income.

A.R.S. § 43-1022 (19): To the extent not already excluded, compensation received for active service as a member of the U.S. armed forces for any month during any part of which the member service in a combat zone.

A.R.S. § 43-1022 (20): The amount of unreimbursed medical and hospital costs, adoption counseling, legal and agency fees and other nonrecurring costs of adoption not to exceed \$3,000.

A.R.S. § 43-1022 (24): Any amount of qualified educational expenses distributed from a qualified state tuition program determined pursuant to §529 of the IRC and that is included in income.

A.R.S. § 43-1022 (25): Any item of income resulting from an installment sale that has been properly subjected to tax in another state in a previous year and is included in Arizona gross income in the current taxable year.

A.R.S. § 43-1022 (35): The amount of any net long-term capital gain included in federal adjusted gross income that is derived from an investment in an asset acquired after December 31, 2011. The subtraction is equal to 10% of the total net long-term capital gain for tax year 2013, 20% for tax year 2014 and 25% for tax year 2015 and thereafter.

A.R.S. § 43-1332 (2): In the case of a trust established as a medical savings account pursuant to A.R.S. § 43-1028, income earned that is included in the trust's Arizona gross income.

A.R.S. § 43-1333: The income of the estate or trust which is to be distributed or credited during the year to any legatee, heir or beneficiary is allowed as a subtraction from federal taxable income.

A.R.S. § 43-1022 (30): The amount contributed to §529 college savings plans up to \$750.

A.R.S. § 43-1022 (32): The amount of previously deferred discharge of indebtedness (DOI) included in gross income for the current year to the extent that the amount was previously added to Arizona income.

A.R.S. § 43-1022 (31): The amount of original issue discount (OID) not allowed to be deducted in computing federal taxable income under IRC § 108(i).

A.R.S. § 43-1022 (33): The net operating loss computed under § of the IRC in effect prior to enactment of special federal net operating loss rules per IRC § 172(b)(1)(H) for losses incurred during 2008 or 2009.

In tax year 2013, subtractions on fiduciary tax returns were reported in combination with additions to fiduciary income on the front of the tax return. Therefore, information is only available on the value of subtractions not entirely offset by additions to fiduciary income for a total of \$19,152,920. Subtractions for a percentage of any net long-term capital gains from an investment in an asset acquired after December 31, 2011 would be reported on the front of the tax return for a total of \$3,001,811. Subtractions for income from a trust established as a medical savings account would also be reported on the front of the tax return but no subtractions were claimed.

PREFERENTIAL TAX RATES

Fiduciary income tax is calculated according to a graduated tax rate schedule, shown below:

At Least	But Less Than	
\$ 0	\$ 10,000	2.59% of taxable income
\$ 10,000	\$ 25,000	2.88% of taxable income less \$29
\$ 25,000	\$ 50,000	3.36% of taxable income less \$149
\$ 50,000	\$ 150,000	4.24% of taxable income less \$589
\$ 150,000	And over	4.54% of taxable income less \$1,039

This is a preferential rate structure because different tax rates are imposed on similar taxpayers based on criteria set in statute. Taxpayers with higher incomes are taxed at a higher rate.

If a uniform rate were imposed, it is probable that the uniform rate would be an effective tax rate among all taxpayers, making the fiscal impact revenue neutral. Given that legislative action cannot be predicted, we will point out the preferential tax rate structure in law but will not attempt to attach a revenue impact.

FIDUCIARY INCOME TAX CREDITS

After fiduciary income tax liability is calculated, two credits can be subtracted. If the estate or trust is considered to be a resident of Arizona and also a resident of another state or country, the estate or trust will be allowed a tax credit against the Arizona income tax liability for taxes paid to the other state or country. In 2013, \$9,912,399 was claimed as credit for taxes paid to other states or countries. This credit is a direct reduction to tax liability.

FLIGHT PROPERTY TAX EXPENDITURES – FISCAL YEAR 2014/15

The airline companies in Arizona pay a tax on the flight property within the state. The taxable value, or net assessed value, of the flight property is determined by multiplying the full cash value of the property by an assessment ratio. The tax rate that is applied to the net assessed value is equal to the statewide average tax rate, which was 12.67% in tax year 2014.

FLIGHT PROPERTY TAX EXEMPTIONS

A.R.S. § 42-14251.10: If an airline is operating in Arizona with a maximum passenger capacity of less than 56 seats and a maximum payload capacity of less than 18,000 pounds, this small flight property shall be valued at 30% of its original cost less depreciation, multiplied by the assessment ratio.

Had the taxable value been 100%, the state would have raised \$394,513 more in fiscal year 2014/15.

PREFERENTIAL ASSESSMENT RATIO

A.R.S. § 42-14255: Arizona statutes set the assessment ratios to be used in determining the net assessed values of the various classes of property. These assessment ratios range from 19.0% to 5%. For flight property, the assessment ratio is equal to the ratio which the total net assessed valuation of all taxable property in class 1, class 6 paragraph 3 and personal property in class 2 bears to the total full cash value of such property.

For tax year 2014, the assessment ratio used for flight property was 15%. This is considered to be a preferential assessment ratio because it is an average of the assessment ratios in several other classes of property. If flight property had an assessment ratio equal to the highest assessment ratio imposed, 19.0%, tax collections would have increased by \$544,803.

IN LIEU PROPERTY TAX EXPENDITURES – FISCAL YEAR 2014/15

Irrigation districts, power districts, electrical districts or agricultural improvement districts directly engaged in the sale of electric power or energy other than for irrigation purposes may elect to make voluntary contributions to Arizona and the political subdivisions thereof for property taxes. These districts are not legally liable for property taxes imposed by the state and the political subdivisions, so these voluntary contributions are known as in lieu property taxes. (However, per A.R.S. § 9-432B, water may not be transported from remote municipal property by a city, town or political subdivision unless voluntary contributions have been paid.)

The Department of Revenue determines the full cash value of the district electing to make in lieu property tax payments. The county assessor of each county where district electric facilities are located computes the gross contribution to be made. The district may subtract certain amounts from this gross contribution figure.

IN LIEU PROPERTY TAX SUBTRACTIONS

A.R.S. § 48-242 (C)(1): A subtraction is allowed for the contribution related to that portion of the electric system related to pumping water.

A.R.S. § 48-242 (C)(2): A deduction of \$10,000 is allowed from the gross contribution.

A.R.S. § 48-242 (C)(3): Certain taxes or assessments paid to any political subdivision during the preceding calendar year may be deducted from the gross contribution.

A.R.S. § 48-242 (C)(4): The annual average of the total water costs devoted to municipal use during the last three calendar years is deductible from the gross contribution.

The effect of these subtractions from the gross contribution amount is that the district in question pays a certain percentage of the gross contributions. The primary contributor, Salt River Project, paid approximately 85.55% of the tax that would have been levied in fiscal year 2013/14 had they been legally bound to pay property tax. Given the repeal of the state rate, the dollar expenditure that previously appeared in this report is no longer applicable. However, because the exemptions filter through to the tax base at the local level, descriptions of the exemptions remain.

INDIVIDUAL INCOME TAX EXPENDITURES – FISCAL YEAR 2014/15

No information is available on individual income tax expenditures at this time. At the final printing of this publication, all data will be included. The individual income tax information in the final report will be made available through the 2013 Individual Income Tax Simulation Model.

INDIVIDUAL INCOME TAX CREDITS

A tax credit differs from an exemption, subtraction or deduction in that it directly reduces tax liability rather than taxable income. A \$100 deduction, for example, would reduce tax liability by \$4.54 at most (\$100 time the maximum tax rate of 4.54%). On the other hand, a \$100 credit reduces tax liability by the full \$100. The first group of credits identified below is claimed on the front of the Arizona income tax return or, in the case of the property tax credit and the increased excise taxes paid credit, can be claimed on a separate form without filing an income tax return.

A.R.S. § 43-1072: The property tax credit program provides tax relief to the state's low-income elderly. Under this program, full-year residents age 6 or older with a household income of less than \$5,500 are eligible for credits ranging from \$56 to \$502. The property tax credit is refundable, meaning that those eligible for the credit receive money even if they had no income tax liability.

A.R.S. § 43-1072.01: A refundable credit is allowed against income tax to mitigate the increase in transaction privilege tax rates for education. To qualify, claimants must have federal adjusted gross income of \$25,000 or less for married filing jointly or \$12,500 or less for single filers. The credit shall not exceed \$25 for each person who is a resident and for whom a personal or dependent exemption is allowed, with a maximum credit of \$100 per household.

A.R.S. § 43-1073: Single and married filing separately filers with a federal adjusted gross of \$10,000 or less, and married filing jointly filers with a federal adjusted gross income of \$31,000 or less may claim the family tax credit. The amount of the credit is set at \$40 per person in the household and is capped at \$240 for married filing jointly and unmarried head of household filers, and \$120 for single and married filing separately filers.

Other credits are filed on a separate schedule and claimed on one line on the front of the income tax return. In many instances, the credit claimed exceeds the tax liability on the return. With credits that are non-refundable, the unused portion of the credit is superfluous. (The excess, for most credits, can be carried forward to future years.) For this reason, in order to generate the true expenditure associated with credits, each credit claim must be reviewed.

A.R.S. § 43-1071: The majority of the credits claimed in terms of dollars and volume are for taxes paid to other states or countries.

A.R.S. § 43-1074: Enterprise zone credits are income tax credits provided for non-retail businesses located in an enterprise zone established under Arizona law who have a net increase in employment of qualified employees, as certified by the Arizona Commerce Authority. A maximum of \$500 per each net new employee can be claimed in the first or partial year of employment. In the second year of continuous employment, a maximum of \$1,000 per net new employee can be claimed. The limit in the third year of continuous employment is \$1,500 per net new employee. A sunset date was set in statute of June 30, 2011. Carry forward is allowed for 5 years after that date.

A.R.S. § 43-1074: This statute now governs the new employment credit which is for net increases in qualified employment positions. To qualify for the credit, the taxpayer must invest at least \$5 million in capital investment and create at least 25 new qualified positions in an Arizona city or town with a population of 50,000 or more, or invest at least \$1 million in capital investment and create at least 5 new qualified positions in any other Arizona location. The amount of credit is determined and authorized by the Arizona Commerce Authority.

A.R.S. § 43-1074.01: The research and development tax credit is calculated based on calculations done for the federal research and development tax credit. The amount of the credit is based on the excess of the qualified research expenses for the taxable year over a base amount. Beginning with tax year 2010, taxpayers employing fewer than 150 persons may have their research and development credit refunded, to the extent that it exceeds tax liability. Approval for the refundable credit by Arizona Commerce Authority is required. Beginning in tax year 2012, an additional credit for research payments made to a university under the jurisdiction of the Arizona Board of Regents, as certified by the Arizona Department of Revenue.

A.R.S. § 43-1074.02: The credit for investments made in a qualified small business is based on a percentage of the investment amount and depends on the location or type of the qualified small business. The amount of credit is determined and authorized by the Arizona Department of Commerce.

A.R.S. §§ 43-1075 and 43-1075.01: A nonrefundable, transferable credit is allowed for a motion picture production company that produces motion pictures completely or partially in Arizona and for the construction of an eligible infrastructure. The taxpayer must receive pre-approval and post-approval from the Arizona Commerce Authority. This credit had a repeal date of taxable years beginning from and after January 1, 2011 when enacted. The carry forward period available is five years.

A.R.S. § 43-1076: The recycling equipment credit was an income tax credit for businesses or individuals that acquire and place in service recycling equipment in the state. The credit was repealed for taxable years beginning from and after January 1, 2003 and only available to the extent that the taxpayer had unused carry forward from prior years.

A.R.S. § 43-1076 and 43-1076.01: These statutes govern the credit for businesses that enhance or sustain forest health, sustain or recover watershed or improve public safety or for training new qualified employment positions, as certified by the Arizona Commerce Authority.

A.R.S. § 43-1079: The military reuse zone credit is a tax credit for net increases in employment by the taxpayer of full-time employees working in a military reuse zone who are primarily engaged in manufacturing, assembling or fabricating aviation or aerospace products. The amount of the credit is determined by a dollar amount allowed for net new employee positions other than dislocated military base employees and by a dollar amount allowed for net new dislocated military base employee positions.

A.R.S. § 43-1079.01: A credit is allowed to each taxpayer whose employee is a member of the Arizona national guard if the employee is placed on active duty. The amount of the credit is \$1,000 for each employee placed on active duty.

A.R.S. § 43-1080: A tax credit is provided for expenses incurred in constructing a qualified environmental technology manufacturing, producing or processing facility. The amount of the credit is 10% of the amount spent during the taxable year to construct the facility.

A.R.S. § 43-1081: The pollution control device credit is a tax credit for expenses incurred to purchase real or personal property that is used in Arizona in the taxpayer's trade or business to control or prevent pollution. The amount of the credit is the lesser of 10% of the purchase price or \$500,000.

A.R.S. § 43-1081.01: A credit is allowed for expenses that a taxpayer (involved in the commercial production of livestock, livestock products or agricultural, horticultural, viticultural or floricultural crops or products) incurs to purchase tangible personal property that is primarily used in the taxpayer's trade or business in Arizona to control or prevent pollution.

A.R.S. § 43-1083: A solar energy credit is provided for an individual who installs a solar energy device in his or her residence in Arizona. The credit for buying or installing such a device is 25% of the cost, including installation, or \$1,000, whichever is less.

A.R.S. § 43-1083.01: A refundable credit is allowed for expanding or locating qualified renewable energy operations in Arizona. The credit is up to 10% of the taxpayer's total capital investment in Arizona if 1.5 new full-time employment positions are created for each \$500,000 of new capital investment for manufacturing operations or 1 new full-time employment position is created for each \$200,000 in capital investment for headquarters. For other qualifying renewable energy investment, the credit is 10% of \$500,000 for each 1.5 new full-time employment positions created in manufacturing operations or 10% of \$200,000 for each 1 full-time employment position created for headquarters, neither of which can exceed 10% of the taxpayer's total capital investment. Approval from the Arizona Commerce Authority is required.

A.R.S. § 43-1083.02: A credit is allowed for production of electricity by a qualified energy generator that produces energy using solar light, solar heat, wind or biomass. Approval from

the Arizona Department of Revenue is required to take the credit. No more than \$20 million can be approved in a calendar year.

A.R.S. § 43-1083.03: A refundable credit is allowed for expanding or locating a new qualified facility in Arizona. A qualified facility is a facility that devotes at least 80% of the property and payroll at the facility to qualified manufacturing, qualified headquarters or qualified research. Approval from the Arizona commerce Authority is required to take the credit. No more than \$70 million (in conjunction with the renewable energy industry credit) can be approved in a calendar year and no more than \$30 million per taxpayer.

A.R.S. § 43-1084: A credit is allowed for expenses incurred by a taxpayer to purchase and install an agricultural water conservation system. The agricultural water conservation system must be primarily designed to substantially conserve water on land that is used to produce agricultural products, raise, harvest or grow trees, or sustain livestock. The amount of the credit is 75% of the qualifying expenses.

A.R.S. § 43-1085: A credit is provided for installing one or more solar energy devices for commercial or industrial purposes in the taxpayer's trade or business. The credit is 10% of the installed cost of the device, not to exceed \$25,000 per taxpayer per building or \$50,000 total in a year. This credit must be approved by the Arizona Commerce Authority.

A.R.S. § 43-1085.01: The solar liquid fuel research and development credit is for increased research activities related to solar liquid fuel. The credit is 40% of the excess of Arizona qualified research expenses over a base amount.

A.R.S. § 43-1086: An income tax credit is available if a taxpayer makes cash donations to the Arizona Department of Veteran's Services Military Family Relief Fund. There is a \$1 million cap on donations.

A.R.S. § 43-1087: An income tax credit is allowed for net increases in qualified employment of recipients of temporary assistance for needy families who are Arizona residents. A maximum of \$500 per each net new employee can be claimed in the first year of employment, \$1,000 in the second year of employment and \$1,500 in the third year.

A.R.S. § 43-1087.01: An income tax credit is allowed for employers with at least two but no more than 50 employees that provide qualified health plans or contributions to health savings accounts for its employees who are Arizona residents. The credit amount is \$360 for every employee who is enrolled in the qualified health insurance plan. The credit set a repeal date of taxable years beginning from and after January 1, 2014 when enacted.

A.R.S. § 43-1088: A credit is allowed for the amount of voluntary cash contributions to a charitable organization that spends at least 50% of its budget on services to Arizona residents who received TANF benefits or low-income Arizona residents (income of less than 150% of the federal poverty level). The credit amount is up to \$400 for married filing jointly taxpayers and \$200 for all other taxpayers.

A.R.S. § 43-1089: The private school tuition organization credit is allowed for cash contributions to a school tuition organizations up to \$1,000 for married filing jointly filers and \$500 for all other taxpayers. The credit amounts are adjusted annually for inflation.

A.R.S. § 43-1089.01: An income tax credit is allowed for the amount of fees paid to an Arizona public school for the support of extracurricular activities or character education. The credit is for up to \$400 for married filing jointly taxpayers and \$200 for all other taxpayers.

A.R.S. § 43-1089.02: The school site donation credit is for donation of real property and improvements to a school district or charter school for use as a school or a site for the construction of a school. The amount of the credit is 30% of the value of real property and improvements donated.

A.R.S. § 43-1089.03: The private school tuition organization “switcher” credit is allowed for cash contributions to a school tuition organization that exceed the original private school tuition organization credit (A.R.S. § 43-1089). The amount of the credit is capped at \$1,000 for married filing jointly filers and \$500 for all other taxpayers. The credit amounts are adjusted annually for inflation.

A.R.S. § 43-1090: A credit is allowed for costs incurred in installing an electric vehicle recharge outlet and for solar hot water plumbing stub outs in one or more houses in Arizona constructed by the taxpayer. The amount of the credit is equal to the lesser of \$75 or the installation cost for each stub out or recharge outlet in each separate house or dwelling unit.

A.R.S. § 43-1090.01: A credit is allowed for installing a water conservation system in a taxpayer’s Arizona residence. The amount of the credit is 25% of the cost of the system not to exceed \$1,000 for the same residence. This credit had a repeal date of taxable years beginning from and after January 1, 2012 when enacted. The carry forward period available is five years.

For 2013, Arizona did not conform to tax law changes enacted by the federal government for the retroactive provision of § 1106 of Public Law 112-95 relating to payments made by airline carriers to qualified airline employees. Instead of conforming to the retroactive provision, any taxpayer that would have received a refund of Arizona income tax for taxable years 2001 through 2011 is allowed a refundable income tax credit on the taxpayer’s 2013 return.

Preliminary data for tax year 2013 is shown in the following table. Asterisks indicate instances in which release of information would breach confidentiality laws.

INSURANCE PREMIUM TAX EXPENDITURES¹⁸ - FISCAL YEAR 2014/15

Each admitted insurer doing business in the state is required to annually report its total direct premium income to the Arizona Department of Insurance.

A.R.S. § 20-224: Total direct premium income excludes "...applicable cancellations, returned premiums, the amount of reduction in or refund of premiums allowed to industrial life policyholders for payment of premiums direct to an office of the insurer, all policy dividends, refunds, savings coupons and other similar returns paid or credited to policyholders within this state and not reapplied as premiums for new, additional or extended insurance." Direct premium income also excludes "considerations received on annuity contracts," as well as the "unabsorbed portion of any premium deposit." No information is available on the value of these exclusions from direct premium income because insurers are not required to report this information to the Department of Insurance. However, there is data available for "*considerations received on annuity contracts.*" Insurance companies (excluding fraternal benefit societies) reported \$5.38 billion in these considerations which, if taxed at a two-percent rate, would have resulted in \$107.5 million in revenues to the state in fiscal year 2014/15.

A.R.S. §§ 20-674(b), 20-692(b): Insurers subject to Guaranty Fund assessments may offset their premium tax liabilities "in the amount of 20% of the assessment for the year of assessment and 20% of the assessment in each of the succeeding four years." Because insurers have not been assessed by either of the Insurance Guaranty Funds for over five years, no credits emanating from Guaranty Fund assessments were available to offset calendar year 2014 premium tax liabilities (and thus, Fiscal Year 2014/15 tax revenues).

A.R.S. § 20-167(D): Domestic life and disability insurers that pay their certificate of authority renewal fees are eligible for credits against their insurance premium taxes. Insurers are not able to receive a refund for, or carry forward, any unused credit. For 2014, insurers reduced their tax liabilities by a total of \$4,316.

ARS § 20-224.03: Allows a credit to a taxpayer that makes a required level of capital investment in Arizona and that has a minimum number of qualified employment positions (full-time employees for which the employer pays at least 65% of health benefit costs and to whom the employer pays at least the median wage by county computed by the Arizona Commerce Authority). A qualifying employer is permitted a tax credit of \$3,000 for each qualified employment position for each of three years of continuous employment. For Calendar Year 2014, insurers used this credit to reduce their tax liabilities by an aggregate of \$3.2 million.

ARS § 20-224.04: A credit is provided to insurers that have offices established in military reuse zones and that meet other requirements. No insurer has claimed the military reuse zone credit since its inception.

¹⁸ All information presented on the insurance premium tax was provided by the Arizona Department of Insurance.

A.R.S. §§ 20-224.06, 20-224.07: A tax credit is allowed for insurers that make voluntary contributions to school tuition organizations and exclude the credits from the retaliation calculation prescribed by ARS § 20-230, described later. Insurers reduced their Calendar year 2014 taxes by \$21.0 million.

A.R.S. §§ 20-224.05, 43-210: A tax credit is allowed to an insurer that issues health insurance coverage to individuals and small businesses who are certified by the Department of Revenue as meeting prescribed qualifications. The Act requires the Department of Revenue to limit certifications such that the aggregate credits to which insurers will be entitled shall not exceed \$5 million. An insurer is owed a tax refund or tax credit carry-forward for unused credit issued pursuant to the Act. In the aggregate, insurers reduced their calendar year 2014 tax liability by \$3.7 million with health insurance coverage credits.

A.R.S. § 20-416: Surplus lines insurers do not remit ordinary premium tax. Instead, surplus lines brokers are responsible for remitting premium taxes collected from insureds when coverage is placed in the surplus lines market. The tax rate is 3% of gross premiums and fees less certain prescribed statutory reductions.

A.R.S. § 20-416: Surplus lines brokers are not required to collect and remit insurance premium tax on "...reinsurance, ocean marine and foreign trade insurance, insurance on subjects located, resident or to be performed wholly outside this state, insurance on vehicles or aircraft owned and principally garaged outside this state, or insurance on property or operations of railroads engaged in interstate commerce."

A.R.S. § 20-420(A): Surplus lines tax is not imposed on coverage provided to federally recognized Native American governments in accordance with Attorney General Opinion R95-13 (R95-11). Surplus lines tax is not imposed on coverage provided to the State of Arizona pursuant to ARS § 41-621(F), which exempts the Department of Administration from the provisions of Title 20, Chapter 2, Article 5 -- the Article that, in part, imposes the surplus lines tax.

Excluding reinsurance and insurance on extra-state risks (which are excluded from taxation for admitted insurers), surplus line brokers reported \$4.1 million in premiums exempted from premium taxes due in Fiscal Year 2014/15. The tax on these premiums would have been \$123.9 thousand if they were taxed at the 3% rate at which non-exempt surplus lines premiums are taxed.

A.R.S. § 20-224(B): Insurers are required to pay a 2.2% tax on fire insurance premiums "... except that the tax on fire insurance premiums on property located in [qualified locations including] incorporated cities or towns that procure the services of private fire companies...." is 0.66%. The State Treasurer apportions eighty-five percent of fire insurance premium taxes to fire districts and municipalities for the retirement plans of firefighters [ARS §§ 20-224(C), 9-951, 9-952, 9-972]. The remaining 15% of fire insurance premium taxes are deposited with the General Fund (ARS § 20-227). In calendar year 2014, insurers wrote \$4.6 million of taxable fire

insurance premium for risks in *qualified* locations resulting in \$30.7 thousand in insurance premium tax paid during fiscal year 2014/15 for those risks. If risks in qualified locations were subject to the 2.2% tax rate applied to other fire insurance premiums, insurers would have paid \$102.2 thousand in fiscal year 2014/15, a difference of \$71.5 thousand. The effect of the tax rate difference may be mitigated by the retaliation calculation required by ARS § 20-230, described later.

Laws 2015, Ch. 220 (HB 2568) amended ARS § 20-224 (B) to provide for a series of eleven incremental decreases to tax rates applicable to insurance premiums other than fire insurance, disability insurance and health care service plan coverage, from the 2.0% tax rate, which is in effect through Calendar Year 2015, to 1.7% in Calendar Year 2026.

Title 20, Chapter 4, Article 14: Arizona law does not impose a premium tax on captive insurers licensed. All other states that license captive insurers impose an insurance premium tax. The Director of Insurance has discretion over the license fees and renewal fees imposed upon captive insurers, and those fees are higher than the fees for other types of insurers licensed in Arizona and the fees captive insurers pay in some other states. Other states tax captive insurer premiums at lower tax rates than other types of insurer premiums but tax nationwide premiums (rather than just intra-state premiums). The other states tax insurance and reinsurance (rather than only insurance). Vermont was one of the first states to license captive insurers and it has the most captive insurers licensed of any state. In total, Arizona captive insurers reported \$7.7 billion in premiums exempted from calendar year 2014 premium tax. If Arizona applied Vermont's captive insurance tax structure, Arizona would have collected \$3.5 million in captive insurance premium tax. During fiscal year 2014/15, the Department collected \$0.6 million in license renewal fees from captive insurers. If Arizona replaced its \$5,500 captive insurer renewal fee with Vermont's \$500 captive insurer renewal fee and adopted Vermont's captive insurance premium tax structure, Arizona would have collected an additional \$2.9 million.

A.R.S. § 20-837: The premium tax for non-profit hospital, medical, dental and optometric service corporations does not apply to "any coverage concerning which the corporation's relationship is as administrative or fiscal agent for national, state or municipal government or any political subdivision body thereof and such tax shall not apply with respect to any premiums received from funds of national, state or municipal government or any political subdivision or body thereof.". The total of exempted net premiums in calendar year 2014 was \$180.8 million and if the State were able to apply the 2% tax rate, the State would have collected \$3.6 million in additional premium taxes in fiscal year 2014/15.

42 U.S.C. § 1395w-24(g): "The Medicare Prescription Drug Improvement and Modernization Act of 2003" prohibits states from taxing Medicare Advantage premiums. In calendar year 2014, insurers reported a total of \$3.5 billion subject to this preemption. If those premiums

were subject to the Arizona 2% tax rate, the state would have collected \$70.3 million in fiscal year 2014/15.

5 U.S.C. §§ 8714 and 8909(f): Life and health insurance premiums paid by the Federal Employee Health Benefits Fund are exempt from taxation by the states. In calendar year 2014, the FEHB Fund paid \$632.4 million to provide life and health coverage for Federal employees in Arizona. If Arizona were able to tax those premiums at a 2% rate, the state would have collected \$12.6 million in fiscal year 2014/15

7 U.S.C. § 1511: Premiums for farm owners' multiperil coverage reinsured by the Federal Crop Insurance Corporation are exempt from state insurance premium taxation. In calendar year 2014, insurers collected \$13.2 million in premiums reinsured by the FCIC which, if taxed at a 2% rate, would have resulted in an additional \$264.7 thousand being collected in fiscal year 2014/15.

ARS § 20-2304(J): Small group health insurance policies written by accountable health plans from insurance premium tax are exempt. During Calendar Year 2014, insurers received \$759.2 million in premiums for health benefits plans issued to small employers by accountable health plans. Had the tax rate on these premiums remained at 2%, an additional \$15.2 million would have been deposited to the General Fund in fiscal year 2014/15.

ARS § 20-883: Fraternal benefit societies qualified under ARS § 20-893 are exempted from insurance premium taxes (and from other state, county, district, municipal and school taxes). Fraternal benefit society premiums exempted from tax totaled \$154.1 million for calendar year 2014. Had these premiums been subject to a 2% tax rate, the State would have collected \$3.1 million more in fiscal year 2014/15.

ARS § 20-230: The Department of Insurance is required to impose on foreign and alien insurers the same taxes, fees, fines, penalties, licenses, deposit and other obligations that the laws of their domicile impose on Arizona insurers doing business in their state or country. Because the amount of retaliatory tax that foreign and alien insurers pay relies on the tax rates, fees, assessments, credits, etc. in the insurers' states of domicile, no method exists to calculate the exact effect Arizona would realize if the foregoing qualifications and exemptions of insurance premium taxes were not in place. Additionally, retaliation is extremely difficult to calculate because of differences in the ways that states tax each type of insurers or each class of insurance, and the variety of additional fees, credits and other obligations that apply to insurers in each state. Therefore, the tax expenditure estimates exclude the possible consequential effects on the retaliation calculation. It is fair to say, however, that retaliation revenues could fall if Arizona imposed additional taxes or fees, or eliminated tax credits that were part of the retaliation calculation.

JET FUEL EXCISE AND USE TAX EXPENDITURES – FISCAL YEAR 2014/15

Arizona imposes a tax of 3.05¢ per gallon on the first ten million gallons of jet fuel sold. Jet fuel is defined as being expressly manufactured and blended for operating jet or turbine powered aircraft. The jet fuel use tax rate is also a 3.05¢ per gallon and is levied on the first ten million gallons of jet fuel stored, used or consumed. The use tax applies to purchasers who originally purchased jet fuel for resale but instead used or consumed the jet fuel and on which excise tax has not been paid. The excise tax does not apply to the sale or use of jet fuel that has already been taxed by another state unless the tax imposed by another state is less than Arizona’s tax rate. The difference between Arizona’s rate and the rate of the other state is what will be levied and collected.

PREFERENTIAL JET FUEL TAX RATES

Amounts of jet fuel sold over ten million gallons are not subject to the excise or use tax. Fiscal year 1993/94 was the last year that amounts over ten million gallons were taxed. In that year, 179.4 million gallons were taxed at the over ten million gallon tax rate of 1.05¢ per gallon. Using the same growth rate that has been experienced with jet fuel of less than ten million gallons, an additional \$6.6 million could have been generated in fiscal year 2014/15 if sales of jet fuel over ten million gallons were taxed at 3.05¢ per gallon.

JET FUEL TAX EXEMPTIONS

A.R.S. § 42-5354: Jet fuel sold to commercial airlines and used on flights that originate in Arizona and whose first outbound destination is outside of the United States is exempt from the jet fuel excise tax. Information is not available on this tax exemption.

LUXURY TAX EXPENDITURES – FISCAL YEAR 2014/15

Luxury tax collected by the Arizona Department of Revenue totaled \$403 million for fiscal year 2014/15. Luxury tax revenues go to the state general fund, the Tobacco Tax and Health Care Fund, the Tobacco Products Tax Fund, the Drug Treatment and Education Fund, the Department of Corrections, Smoke Free AZ and the Early Childhood Development and Health Fund.

ALCOHOL TAXED AT A PREFERENTIAL RATE

Current Arizona law (A.R.S. §42-3052) provides for liquor to be taxed at four different rates: (1) spirituous liquor at the rate of \$3.00 per gallon; (2) on each container of vinous liquor, except cider, of which the alcoholic content is not greater than 24% by volume, at the rate of \$0.84 per gallon (3) on each container of vinous liquor of which the alcoholic content is greater than 24% by volume²³, containing eight ounces or less, \$0.25; and (4) on each gallon of malt liquor or cider, \$0.16. This is a preferential rate structure because different tax rates are imposed on similar taxpayers based on criteria set in statute.

The impact of taxing all alcohol at the same rate is possible but unrealistic. If a uniform rate were imposed, it is probable that the uniform rate would be an effective tax rate among all types of alcohol. Given that legislative action cannot be predicted, we will point out the preferential tax rate structure in law but will not attempt to attach a revenue impact.

EXEMPTIONS FOR TOBACCO PRODUCTS

Several exemptions from luxury tax on tobacco products are allowed.

A.R.S. § 42-3052.06: Tobacco powder or tobacco products used exclusively for agricultural or horticultural purposes and unfit for human consumption are exempt from taxation. Since this is exempt from taxation, the Arizona Department of Revenue does not require this figure to be reported. Therefore, no tax value of this tax expenditure is available.

A.R.S. §42-3206: Discounts on cigarette stamps are allowed. The luxury tax on cigarettes is in the form of a stamp affixed to the cigarette package, which is obtained from the Department of Revenue at the following rates:

- 96% of face value of stamp for first \$36,000 worth of stamps.
- 97% of face value of stamp for second \$36,000 worth of stamps.
- 98% of face value of stamp for additional stamps up to \$165,000 in any month by a distributor. In addition, if the distributor purchases more than \$165,000 worth of stamps, then the effective rate for all stamps purchased, including the first \$72,000, will be 98% of face value.

²³The department has received no tax collections for this liquor type.

If all stamps were purchased at face value, revenue would have increased by \$11.7 million in fiscal year 2014/15.

A.R.S. §§ 42-3209 (A) and 42-3008 (A)(2): A distributor may return *unused* tobacco product stamps for a refund. Luxury tax is also refunded if the cigarettes become unfit for sale due to breakage or spoilage. Most often, staleness is the reason for refund. If the state considered this to be a hazard of doing business and disallowed such refunds, an additional \$26.7 million in fiscal year 2014/15 in luxury revenues would have resulted.

A.R.S. § 42-3008A: If proof is provided that cigarettes for which the stamps were purchased were exported from the state, luxury tax may be refunded. No information is available on the value of this exemption.

EXEMPTIONS FOR LIQUOR

A.R.S. §§ 42-3001.10A, 3001.13 and 3001.14C: Liquids containing less than 1/2% alcohol by volume are exempt from luxury tax. Since reporting is not required by this group of taxpayers, there is no available information on potential luxury tax collections.

A.R.S. §§ 42-3001.10B, 3001.13 and 3001.14C: Taxable liquors do not include medicines that are unsuitable for beverage purposes. No information is available on medicine, which includes liquor and is unsuitable for beverage purposes.

A.R.S. §42-3008A: Luxury tax is refunded if (1) proof is provided that the liquor for which the stamps were purchased was exported from the state and (2) if the liquor becomes unfit for sale due to breakage or spoilage. No information is available on liquor for which stamps were purchased and were then exported from the state. Liquor unfit for sale due to breakage or spoilage includes beer or wine which has exceeded its shelf life of three to six months and containers damaged in such a way that the product's quality is uncertain. Documents reporting destruction under this provision indicated \$30,959 in tax revenue lost in fiscal year 2014/15.

MOTOR CARRIER FEE TAX EXPENDITURES²⁶ – FISCAL YEAR 2014/15

Motor carriers are responsible for the following fees: motor carrier fee, commercial registration fee, gross weight fee, highway use fee, title fee and registration fee. Receipts from these fees go into the Highway User Revenue Fund and are distributed to the Department of Public Safety, Economic Strength Fund, state highway fund, counties and incorporated cities and towns. The basic motor carrier fee is set at amounts ranging from \$64 to \$800. The fees are flat amounts based on gross vehicle weight. The vehicle weight for this schedule ranges from 12,001 pounds to 80,000 pounds. During fiscal year 2014/15, Arizona-based carriers paid \$18.70 million in motor carrier fees.

PREFERENTIAL VEHICLE FEE RATES

A.R.S. § 28-5493(A): Lightweight motor vehicles with a declared gross weight of 12,000 or fewer pounds pay a flat rate of \$64 per vehicle. Persons who pay the light motor vehicle fee are exempt from any transaction privilege tax or any similar tax imposed by any taxing authority in this state on transactions involving transporting for hire persons, freight or property. The value of this expenditure is currently unavailable.

A.R.S. § 28-5855: A reduced motor carrier fee of 7/10 of the full rate is applied against motor vehicles that pre-qualified for the reduced motor carrier fee with the department and travel under the following conditions: 45% or more of the mileage reported is either (1) without a load; (2) with equipment which makes a motor vehicle ready for the road, (3) with restraining equipment which makes the load safe, (4) with equipment normally carried with the motor vehicle and used for load or unloading, (5) with empty containers and boxes being returned to the point of shipment, or (6) with commodities or goods being returned to the point of shipment as a result of damage, spoilage, misfills, consignee rejections, or consignee returns. The value of this expenditure is unavailable.

A.R.S. § 28-5856: A reduced motor carrier fee of 7/10 of the full rate is applied against motor vehicles weighing 26,000 pounds or more. To qualify, the vehicle must begin and end its trip at the same point without adding to its load any items other than those listed in the previous paragraph and at the midway point of a qualifying trip, the load is less than 45% of the full load capacity of the vehicle. The tax value of this information is not available.

A.R.S. § 28-5857: A reduced motor carrier fee of 7/10 of the full rate applies to motor vehicles or lightweight motor vehicles if the vehicle is used only for transporting agricultural products. Agricultural products are crops, livestock, machinery or supplies used or produced in farming operations or products, crops or livestock in their unmanufactured or unprocessed states. The value of this expenditure is unavailable.

²⁶ Figures presented for Motor Carrier Fee Tax Expenditures were provided by the Arizona Department of Transportation.

EXEMPT VEHICLES

A.R.S. § 28-5853: The following vehicles are exempt from the motor carrier fee:

- School bus
- A motor vehicle used in the production of (a) motion pictures, including films to be shown in theaters and on television, (b) industrial, training and educational films, (c) commercials for television, (d) video discs, and (e) videotapes.
- Alternate vehicles when the vehicle is propelled by an alternate fuel and is a school bus or a motor vehicle used in the production of the items listed above.
- Church vehicles when used in religious associations or institutions.
- Leased school bus.
- Non-profit school vehicles not used or held for profit.

No information is available on the impact of these exemptions.

A.R.S. § 28-5432(C): The following motor vehicles are exempt from the Commercial Registration Fee as a result of the weight fee exemption established for certain circumstances:

- Religious vehicles operated by non-profit religious institutions and used exclusively for the transportation of property produced and distributed for charitable purposes.
- Non-profit school vehicles if used exclusively for transportation of pupils in connection with school curriculum, training of pupils or transportation of property for charitable purposes without compensation.
- Non-profit organization vehicles which can present a form approved by the director of the division of emergency management.
- Vehicles owned and operated by a foreign government, a consul or any other official representative of a foreign government, by the United States, by a state or political subdivision of a state or by an Indian tribal government.
- A motor vehicle that is privately owned and operated exclusively as a school bus pursuant to a contract with a school district.

No information is available on the impact of these exemptions.

GROSS WEIGHT FEE

The gross weight fee is set at amounts ranging from \$7.50 to \$918, dependent upon vehicle weight. The vehicle weight for this schedule ranges from up to 8,000 pounds to 80,000 pounds. Vehicles in excess of 80,000 pounds are subject to special permits. Total gross weight fee collections for Arizona-based vehicles during fiscal year 2014/15 was \$31.85 million.

A \$4 commercial registration fee is added to the gross weight fee for each registered vehicle. Commercial registration fees collected for Arizona-based vehicles during fiscal year 2014/15 are not available.

A.R.S. § 28-5436: If a motor vehicle is used for seasonal agricultural work, the annual fee will be reduced by 1/12th for each month the vehicle is not in use. The reduced fee is for a period of at least 90 days but less than a full year. The value of this expenditure is currently unavailable.

A.R.S. § 28-5432: If a privately owned school bus is temporarily operated for purposes other than providing transportation of children to and from school, the owner must pay 1/10th of the annual gross weight fee. The value of this expenditure is currently unavailable.

A.R.S. § 28-5432(C): The following motor vehicles, trailers and semitrailers are exempt from the gross weight fee:

- Motor vehicles, trailers or semitrailers owned and operated by non-profit religious institutions and used exclusively for the transportation of property produced and distributed for charitable purposes.
- Motor vehicles, trailers or semitrailers owned and operated by non-profit schools which are recognized as being tax exempt by the federal or state government if used exclusively for transportation of pupils in connection with school curriculum, training of pupils or transportation of property for charitable purposes without compensation.
- Motor vehicles, trailers and semitrailers owned by a non-profit organization which can present a form approved by the director of the division of emergency management.
- A vehicle owned and operated by a foreign government, a consul or any other official representative of a foreign government, by the United States, by a state or political subdivision of a state or by an Indian tribal government.
- A motor vehicle that is privately owned and operated exclusively as a school bus pursuant to a contract with a school district.

No information is available on the impact of these exemptions.

HIGHWAY USE FEES

The highway use fee is set at amounts ranging from \$50 to \$2,217, depending upon vehicle weight and age. Vehicle weight for this schedule ranges from 0 to 80,000 pounds. Highway use fees collected for Arizona-based vehicles totaled \$5.3 million during fiscal year 2014/15. Vehicles in excess of 80,000 pounds are subject to special permits.

A.R.S. § 28-5471: If the model year of the vehicle is 1978 or older, the use fee schedule is lower, ranging from \$50 to \$1,095. The value of this expenditure is unknown.

A.R.S. § 28-5473(D): A farm vehicle that is issued a farm vehicle license plate is exempt from highway use fees. No information is available on this tax exemption.

FOREIGN BASED CARRIERS

Due to reporting practices, the Department of Transportation is unable to split out foreign based motor carrier fee collections. However, the total amount received from both of these carriers in fiscal year 2014/15 was \$97.7 million. This amount includes registration fees, motor carrier fees, gross weight fees and highway use fees prorated for miles driven in Arizona. The values of these expenditures are also unavailable.

MOTOR VEHICLE FUEL TAX EXPENDITURES²⁸ – FISCAL YEAR 2014/15

There is a tax of 18¢ per gallon on each gallon of motor vehicle fuel possessed, refined, manufactured, produced, blended or compounded by the supplier or imported by the supplier, whether in the original package or container in which it was imported or otherwise. All suppliers are required to pay tax on all fuel received.

During fiscal year 2014/15, motor vehicle fuel tax collected from licensed suppliers was \$492 million. The proceeds of this tax go into the Highway User Revenue Fund, the off-highway vehicle recreation fund and the state lake improvement fund. The Highway User Revenue Fund revenues are distributed to the Department of Public Safety, Economic Strength Fund, state highway fund, counties and incorporate cities and towns.

EXEMPTIONS FROM THE MOTOR VEHICLE FUEL TAX

In order to qualify for an exemption, the taxpayer must file for a refund.

A.R.S. § 28-5610 (A)(1) and (2): Motor vehicle fuel purchased in Arizona, for which proof of export is available and either exported by a supplier or sold by a supplier to a distributor for immediate export is exempt from motor vehicle fuel tax. Requests for refunds against import liability in the amount of \$8,415,115 were received in fiscal year 2014/15.

A.R.S. § 28-5610 (A)(3): Motor vehicle fuel that is sold within an Indian Reservation to an enrolled member of the Indian tribe is excluded from taxation. The total amount refunded for this provision during fiscal year 2014/15 was \$1,065,061.

A.R.S. § 28-5610(A)(4): Motor vehicle fuel used solely and exclusively as fuel to operate a motor vehicle on highways in this state if the motor vehicle is leased to or owned by and is being operated for the sole benefit of an Indian tribe for governmental purposes only.

A.R.S. § 28-5611 (A)(4): Anyone who purchases motor vehicle fuel and loses such fuel due to fire, theft or other accident may request a refund for the tax paid on this fuel. No refunds of this type were requested for fiscal year 2014/15.

A.R.S. § 28-5610 (A)(5): Motor vehicle fuel moving in interstate or foreign commerce, not destined or diverted to a point within this state is exempt from the motor vehicle fuel tax. No information is available on this tax expenditure.

A.R.S. § 28-5610 (A)(6): Motor vehicle fuel sold to the United States or an instrumentality or agency of the United States is exempt from the motor vehicle fuel tax. During fiscal year 2014/15, \$1,290,973 was refunded for this exemption.

²⁸ All information presented for Motor Vehicle Fuel Tax Expenditures was provided by the Arizona Department of Transportation.

A.R.S. § 28-5611 (A): A person who purchases and uses motor vehicle fuel other than in motor vehicles upon the highways of Arizona, and other than in watercraft upon the waterways in Arizona, and other than in motor vehicles operating on a transportation facility or toll road shall be repaid the motor vehicle fuel tax paid. In fiscal year 2014/15, \$202,866 in motor vehicle fuel tax was refunded based on this exemption.

PARI-MUTUEL TAX EXPENDITURES³¹ – FISCAL YEAR 2014/15

HORSE OR HARNESS RACING PREFERENTIAL RATES

A.R.S. § 5-111 (D): For horse or harness races, the state receives 2% of the gross amount of the first \$1 million wagered on live races in pari-mutuel pools and 5% of the gross amount exceed \$1 million. If the state received 5% of all dollars wagered in horse or harness live races, the state would have received an additional \$332,799 in fiscal year 2014/15.

PARI-MUTUEL TAX EXEMPTIONS

A.R.S. § 5-111 (D): Moneys handled in a pari-mutuel pool for wagering on simulcasts of out-of-state horse or harness races are exempt from tax. The state share of the pari-mutuel tax was reduced by \$3.3 million in fiscal year 2014/15 due to this exemption.

A.R.S. § 5-111 (E): Any county fair racing association may have one race meeting each year. All such racing meetings are exempt from the state tax on horse or harness live racing. If county fair racing meetings were not exempt from the tax, the state would have received an additional \$61,910 in pari-mutuel revenues during fiscal year 2014/15.

A.R.S. § 5-111 (F): Moneys from charity racing days are exempt from state tax. Taxation of these events would have raised an additional \$6,427 in pari-mutuel revenues during fiscal year 2014/15.

A.R.S. § 5-111.03.A: The percentage paid to the state for greyhound racing and for horse or harness racing shall be reduced by 1% of the total amount wagered in counties with a population of 500,000 or more and by 2% in all other counties for those permittee's who make capital improvements to existing race tracks. There were no operational tracks that used the capital improvements tax credit in fiscal year 2014/15.

A.R.S. § 5-111.I: The percentage decrease in pari-mutuel wagering between the base year and the previous fiscal year determines a permittee's eligibility for a hardship tax credit. The state share of the pari-mutuel tax for greyhound racing and for horse or harness racing was reduced by the amount equal to the amount of the hardship tax credit. The state share of the pari-mutuel tax was reduced by \$268,705 in hardship tax credits in fiscal year 2014/15.

PRIVATE CAR PROPERTY TAX EXPENDITURES – FISCAL YEAR 2014/15

Businesses which operate, furnish or lease railroad cars to be used for transporting or accommodating persons or freight over railroad lines not owned, leased or operated by the business are subject to a private car property tax in Arizona. The taxable value, or net assessed value, of the private car property is determined by multiplying the full cash value of the property by an assessment ratio. The tax rate that is applied to the net assessed value is equal to the average primary and secondary property tax rates in the taxing districts of the state, which was \$12.67 in 2014.

A.R.S. § 42-14308: Arizona statutes set out the assessment ratios to be used in determining the net assessed values of the various classes of property. These assessment ratios range from 19% to 5%. For private car property, the assessment ratio is equal to the ratio which the total net assessed valuation of all taxable property in class 1, class 6 paragraph 3 and personal property in class 2 bears to the total full cash value of such property. For tax year 2014, the assessment ratio used for private car property was 16%. This is considered to be a preferential assessment ratio because it is an average of the assessment ratios in several other classes of property. If private car property had an assessment ratio equal to the highest assessment ratio imposed, 19%, tax collections would have increased by \$312,407.

PROPERTY TAX EXPENDITURES – FISCAL YEAR 2014/15

The property tax system in Arizona has many components. These components are intertwined, making it difficult to address the impact of tax expenditures on one component in isolation. The state no longer levies a property tax per \$100 of net assessed value on primary values, so state revenues are affected by exemptions from property tax in three ways.

First, basic state aid, or a basic level of funding for education per student statewide, is provided through the state, the county and school districts. The school district's responsibility is determined by multiplying a uniform tax rate by assessed valuation. If this amount is less than the basic level of funding, additional revenues are received from the state, funded by the education equalization rate which is currently \$0.5054 per \$100 of assessed value. If education equalization revenues cannot bring the school district to its basic level of funding, the state provides the balance of the basic state aid. Therefore, exemptions reduce the property tax base, which may increase the state's portion of basic state aid funding.

The second method concerns the taxation of homeowner property. Frequently, if a political subdivision sees a decline in property values, the tax rate imposed by that subdivision increases so that a consistent revenue stream is provided from the property tax. The same is true if the political subdivision sees its taxable base decrease through exemptions from the property tax. Through a program called additional state aid (commonly known as homeowner's rebate), the state pays 45.003% of a homeowner's school district tax bill, up to \$600. If a homeowner's school taxes increase due to higher tax rates, the state will be required to pay a larger amount of money.

Finally, the state pays that part of a homeowner's primary tax bill that exceeds 1% of the limited property value up to one million dollars total per county. Higher tax rates could mean a larger state payment.

PROPERTY TAX EXEMPTIONS

Article IX of the Arizona Constitution exempts:

- Property owned by widows and widowers subject to limitations.
- Property owned by disabled persons, subject to limitations.
- All federal, state, county and municipal property.
- Property of educational, charitable and religious associations or institutions not used or held for profit.
- Household goods owned by the user and used solely for noncommercial purposes.
- Stocks of raw or finished materials, unassembled parts, work in process or finished products constituting the inventory of a retailer or wholesaler located within the state and principally engaged in the resale of such materials, parts or products, whether or not for resale to the ultimate consumer.

There are also exemptions from property taxation that are listed in the Arizona Revised Statutes.

A.R.S. § 42-11104 (A): Libraries, colleges, school buildings and other buildings used for education, with furniture, libraries and equipment, and the lands appurtenant to and used with such buildings, as long as they are used for the purpose of education and not used or held for profit.

2015 ADDITIONAL STATE AID TO EDUCATION

Pursuant to A.R.S. § 15-972, a report indicating the amount of additional State Aid to Education is prepared each year. This additional aid is the amount referred to as the "Homeowner's Rebate." (The state pays 45.003% of a homeowner's school district tax bill, up to \$600.) The summary at the end of this section shows the Additional State Aid to Education tax roll that was billed in 2015, including additional amounts that were billed for legal class 3 property on the personal property tax roll.

SEVERANCE TAX EXPENDITURES – FISCAL YEAR 2014/15

Persons engage in the business of mining or timbering in Arizona are subject to a severance tax. Mining severance is taxed at the rate of 2.5% (A.R.S. § 42-5202(C)) and is levied upon the net severance base. The net severance base is defined as 50% of the difference between the gross value of production and the production costs (A.R.S. § 42-5204).

The timber severance tax was levied on the timber products derived from timbering activity (A.R.S. § 42-5202 (D)) through October 31, 2006. Beginning November 1, 2006 the timber severance tax was repealed. Total mining and timbering severance tax collections in fiscal year 2014/15 totaled \$24.9 million.

PREFERENTIAL SEVERANCE TAX RATES

Until October 31, 2006 timber severance was taxed depending on the type of timber product. The tax rate for ponderosa pine timber products was \$2.13 per thousand board feet and the tax rate for all species except ponderosa pine was \$1.51 per thousand board feet. The tax rate for all other species except ponderosa pine is a preferential rate over the ponderosa pine rate. During fiscal 2014/15, no tax was received for timber severance.

SEVERANCE TAX CREDITS

A.R.S. § 42-5017 (A): A credit is allowed against severance tax imposed for accounting and reporting expenses incurred by the taxpayer. The credit equals 1% of the amount of tax due, not to exceed \$10,000 in any calendar year. In fiscal year 2014/15, information about the value of the severance tax accounting credit was unavailable.

MINING SEVERANCE TAX EXCLUSIONS

A.R.S. § 42-5204: The net severance base is 50% of the difference between the gross value of production and the production costs. Both the 50% factor and the value of production costs are exclusions from severance taxation. Taxing the net severance base at 100% would have generated an additional \$24.9 million in fiscal year 2014/15. The tax value of the production costs is unknown.

TRANSACTION PRIVILEGE AND USE TAX EXPENDITURES

FISCAL YEAR 2014/15

Transaction privilege and use tax gross collections in fiscal year 2014/15 totaled \$5.4 billion. Of that amount, \$1.2 billion was distributed to the counties and cities. The remaining \$4.2 billion was deposited into the state general fund. This report provides information about some of the exemptions and deductions from Transaction Privilege and Use Tax using both data from taxpayers and outside data. The quantifiable exemptions discussed in this report represent potential collections of \$11.8 billion. Additionally, lost revenues due to preferential tax rates, e.g., those items taxed at a rate below 5%, total \$429 million while credits totaled \$19.7 million.

The Proposition 301 - Education Tax, collected \$626 million at the 0.6% rate. While the two taxes are collected on roughly the same tax base, the Proposition 301 monies are dedicated to Education related funds. We continue to present the value of exemptions at the 5% rate. The effect of these exemptions on Proposition 301 can be estimated by taking 12% of the amounts shown later in this section. For fiscal year 2014/15, the value of the exemptions on the Proposition 301 Education funds was \$1.5 billion.

PREFERENTIAL TRANSACTION PRIVILEGE TAX RATES

In most categories, sales in Arizona are taxed at a 5% rate. Two categories of taxable activities, however, are currently taxed at a lower rate. These activities and the corresponding tax rates are as follows:

CODE	TAXABLE ACTIVITIES	RATE
2	Non-Metal Mining, Oil & Gas Production	3.125%
13	Commercial Lease ³⁷	0%

If the activities in these categories had been taxed at a 5% rate in fiscal year 2014/15, additional transaction privilege tax of \$429 million would have been collected.

TRANSACTION PRIVILEGE AND USE TAX CREDIT

A.R.S. § 42-5017: A credit is allowed against transaction privilege tax imposed for accounting and reporting expenses incurred by the taxpayer. The credit equals 1% of the amount of tax due, not to exceed \$10,000 in any calendar year. In fiscal year 2014/15, the value of the accounting credit equaled \$19.7 million.

³⁷The tax rate for this class changed to 0% from 1.0% effective July 1, 1997.

TRANSACTION PRIVILEGE AND USE TAX EXEMPTIONS

Certain types of income or sales by businesses are exempt from transaction privilege and use tax. Some of these businesses have taxable sales as well as exempt sales; some have no taxable sales at all. In the case of those businesses that have both taxable and exempt sales, there is some information on the value of the exemption. Those businesses that only have exempt sales generally do not file transaction privilege tax returns; therefore, no figures are reported for the value of the exempt business. They may, however be captured in the analysis covering the value of Services.

Beginning in calendar 2015 the Department began using a specific deduction code for each deduction from transaction privilege tax. For the new deduction codes we do not have a full fiscal year of data. To the extent possible the data has been estimated as if each deduction code was in place for the whole fiscal year. The following information lists all exemptions identified in the Arizona Revised Statutes, whether information was available on the tax value of the exemption or not.

A.R.S. § 42-5061 (A)(1) and (A)(2): The primary type of business exempt from transaction privilege tax in Arizona is the business of providing a service. The U.S. Census Bureau provides information about the value of services in Arizona through the Economic Census. The 2012 Economic Census Service has recently been released and is the basis for the following analysis of the tax value of some services. *Please note that some portion of the value of these services may already be taxable.* For example the sale of hair shampoo products at a Beauty Salon is taxable but the service of cutting and styling hair is not. The receipts reported in the Economic Census would include both the retail sale of products and the provision of the service. No attempt has been made to determine the *non-taxable* portion of the receipts.

The list of services in this report is a **sample** of services and is not intended to be a comprehensive list. The categories shown are defined by the Census Bureau, not by the preparers of this report. For a complete look at the service industry in Arizona, refer to the several reports comprising the 2007 Economic Census of Arizona, available at the U.S. Census Bureau website, www.census.gov.

Several major categories as defined by the U.S. Census Bureau are shown in the sample of services: (1) professional, scientific and technical; (2) health care; (3) administrative and business support; (4) personal care; (5) educational; (6) finance and (7) other services. Examples of each of these service categories are listed at the end of this section. A summary of potential transaction privilege tax revenue from the Sample of Services in these major categories is as follows³⁸:

³⁸ This summary is not intended to be a comprehensive analysis of potential transaction privilege tax revenue for services. Some portion of the value of these services may already be taxable.

Professional, Scientific and Technical	\$1,015,264,811
Health Care	\$1,991,927,411
Administrative and Business Support	\$705,612,929
Personal Care	\$77,531,057
Educational	\$64,730,776
Finance	\$946,692,134
Other Services	\$251,495,358

Total transaction privilege tax revenue available from these businesses is \$5 billion. Although the estimate of potential tax collections provided here does not include estimates for all services, the majority have been captured.

A.R.S. § 42-5061 (V) (3): (Deduction Code 503) The business of selling tangible personal property at wholesale, by definition, is not taxable. During fiscal year 2014/15, wholesale trade was estimated to be \$102 billion. If taxed at a 5% rate, collections from this category would be \$5.1 billion. Another measure of this type of activity is the deduction for sales for resale. In fiscal year 2014/15 it is estimated that businesses deducted nearly \$82.4 billion for sales for resale. At 5%, these transactions would have generated \$4.1 billion.

A.R.S. §§ 42-5001 (5) and 5001 (6): (Deduction Codes 708 and 711) The transaction privilege and use tax is levied upon the gross income or the gross proceeds of sales. Gross proceeds of sales do not include *cash discounts* allowed. The value of merchandise traded in on the purchase of new merchandise when the *trade-in* allowance is deducted from the sales price of the new merchandise before completion of the sale is exempt. In fiscal 2014/15 it is estimated that businesses deducted \$290 million for this purpose. Had those sales been taxable they would have generated \$14.5 million in tax at the 5% rate.

A.R.S. §§ 42-5002 (2): (Deduction Code 549) Services rendered in addition to selling tangible personal property at retail are not subject to transaction privilege tax. In fiscal year 2014/15 it is estimated that businesses deducted \$4.2 billion from their gross sales for this purpose. At 5%, these transactions would have generated \$209 million.

(Deduction Code 570) Business activity for Enrolled Native American or Tribal entity that occurs on a Reservation is exempt from transaction privilege tax. In fiscal 2014/15 it is estimated that businesses deducted \$57 million for this purpose. Had those transactions been taxable they would have generated \$2.8 million at a 5% rate.

(Deduction Code 716) Sales of Postage stamps at face value are not subject to transaction privilege tax. No information is available on the value of this deduction.

(Deduction Code 777) Sales to foreign diplomats holding a valid US Department of State card authorizing the purchase are not subject to transaction privilege tax. No information is available on the value of this deduction.

A.R.S. § 42-5061 (A)(3): (Deduction Code 542) Sales of warranty or service contracts are exempt from transaction privilege tax. In fiscal year 2014/15 it is estimated that businesses deducted \$313 million for such contracts. Taxing these contracts at a 5% rate would have resulted in collections of \$15.7 million.

A.R.S. §§ 42-5061 (A)(4), 42-5074 (B)(6), 42-5159 (A)(15)(a): (Deduction Code 725) Sales of tangible personal property by any nonprofit organization and operated exclusively for charitable purposes and recognized by the department and the United States Internal Revenue Service as such a nonprofit organization for charitable purposes are exempt from transaction privilege and use tax. In fiscal 2014/15 businesses took an estimated \$1.5 million in deductions for this purpose. At a 5% rate these transactions would have generated \$75,500 in tax.

A.R.S. §§ 42-5061(A)(5): (Deduction Code 507) Sales to persons engaged in business classified under the restaurant classification of articles used for food, drink or condiment are not subject to transaction privilege tax. In fiscal year 2014/15 it is estimated that businesses deducted \$2.2 million for such contracts. Had those transactions been taxable they would have generated \$111,745 in tax at a 5% rate.

A.R.S. § 42-5061 (A)(7): (There is no deduction code for this deduction) The sale of stocks and bonds is not subject to transaction privilege tax in Arizona. No information is available on this tax expenditure.

A.R.S. §§ 42-5061 (A)(8), 42-5159 (A)(16): (Deduction Code 536) Items required by prescription, such as prescription drugs and medical oxygen, are exempt from transaction privilege tax. In fiscal year 2014/15 it is estimated that businesses took \$8.8 billion in deductions for prescriptions and medical oxygen. Had these purchases been taxed at a rate of 5%, collections would be \$440 million.

A.R.S. §§ 42-5061 (A)(9), 42-5159 (A)(17): (Deduction Code 559) Prosthetic appliances prescribed or recommended by a physician, dentist or other professional are exempt from transaction privilege tax. In fiscal year 2014/15 it is estimated that deductions of \$254 million were taken for these items. Had they been taxed, collections would have been \$12.7 million.

A.R.S. §§ 42-5061 (A)(10), 42-5159 (A)(18): (Deduction Code 533) Insulin, syringes, and glucose test strips are exempt from transaction privilege tax. In fiscal year 2014/15 it is estimated that deductions of \$5.1 million were taken for these items. Had they been taxed, collections would have been \$256,330.

A.R.S. §§ 42-5061 (A)(11), 42-5159 (A)(19): (Deduction Code 590) Prescription eyeglasses or contact lenses are exempt from transaction privilege tax. In fiscal year 2014/15 it is estimated that deductions of \$3.1 million were taken for these items. Had they been taxed, collections would have been \$155,000.

A.R.S. §§ 42-5061 (A)(12), 42-5159 (A)(20): (Deduction Code 594) Hearing aids as defined in section 36-1901 are exempt from transaction privilege tax. In fiscal year 2014/15 it is estimated

that deductions of \$4.9 million were taken for these items. Had they been taxed, collections would have been \$246,303.

A.R.S. §§ 42-5061 (A)(13), 42-5159 (A)(21): (Deduction Code 526) Some durable medical equipment is exempt from transaction privilege tax. In fiscal year 2014/15 it is estimated that deductions of \$372 million were taken for these items. Had they been taxed, collections would have been \$18.6 million.

A.R.S. § 42-5061 (A)(14): (Deduction Code 541. This deduction was revised during fiscal 2014/15) Sales of motor vehicles to nonresidents of Arizona for use outside Arizona if the dealer ships or delivers the motor vehicle outside of the state are exempt from transaction privilege tax. It is estimated that in fiscal 2014/15 a total of \$1 billion was deducted *for tangible personal property sold to a nonresident and delivered out of state* including items other than motor vehicles. Were these transactions taxable, an additional \$49.4 million would have been collected. It is expected that this deduction will be lower in the future.

A.R.S. §§ 42-5061 (A)(15 and 16), 42-5159 (A)(22 and 23): (Deduction Codes 506 and 513) Food for home consumption was exempted from transaction privilege and use tax effective July 1980. This includes items purchased with food stamps. In fiscal 2014/15 it is estimated that deductions of \$8.2 billion were taken for these items. A 5% tax on these would have brought in \$414 million in additional revenues.

A.R.S. §§ 42-5061 (A)(17), 42-5159 (A)(28): (Deduction Code 505) Textbooks sold by any bookstore that are required by any state university or community college are not subject to the transaction privilege or use tax. Deductions estimated to be \$10 million were taken for this exemption in fiscal 2014/15. At a rate of 5%, these deductions would have generated \$502,622 had they been taxable.

A.R.S. §§ 42-5061 (A)(18), 42-5159 (A)(24): (Deduction Code 568) Meals provided to employees of restaurants are exempt from transaction privilege and use taxation. No information is available for this tax expenditure for fiscal 2014/15.

A.R.S. §§ 42-5061 (A)(19), 42-5159 (A)(26): (Deduction Code 569) No transaction privilege or use tax is applied to food, drink or condiment purchased for school lunches. In fiscal 2014/15 it is estimated that businesses deducted \$10.9 million for this purpose. At a 5% tax rate this would have generated \$546,131.

A.R.S. §§ 42-5061 (A)(20), 42-5159 (A)(27): (Deduction Code 521) Arizona lottery ticket sales, amounting to \$750 million in fiscal year 2014/15, are not taxable. Additional tax collections of \$37.5 million would have been received if the sales were taxed at a 5% rate.

A.R.S. § 42-5061 (A)(21): (Deduction Codes 567 and 601) The sale of precious metal bullion and monetized bullion to the ultimate consumer is exempt from transaction privilege tax. Precious metal bullion is defined as precious metal, including gold, silver, platinum, etc., which has been smelted or refined so that its value depends on its contents and not on its form. Monetized bullion means coins and other forms of money which are manufactured from gold,

silver, etc., and which have been used as a medium of exchange. In fiscal 2014/15 businesses took an estimated \$7.5 million in deductions for this purpose. Had these transactions been taxable they would have generated \$376,571 in tax at a 5% rate.

A.R.S. § 42-5061 (A)(22): (Deduction Code 515) The sale of vehicle fuel and aviation fuel which are subject to another tax are exempt from transaction privilege tax. In fiscal year 2014/15, deductions of \$4.4 billion were taken. Had they been taxed at 5%, \$220.4 million would have been collected.

A.R.S. § 42-5061 (A)(23): (Deduction Code 571) The sale of tangible personal property to a person engaged in the business of leasing or renting such property under the personal property rental classification if the property is to be leased or rented by such person is not subject to transaction privilege tax. In fiscal year 2014/15, it is estimated that deductions of \$4.3 million were taken. At a 5% tax rate they would have generated \$219,122 in tax.

A.R.S. § 42-5061 (A)(24): (Deduction Code 504) The sale of tangible personal property in interstate or foreign commerce if prohibited from being so taxed by the Constitution of the United States or the constitution of this state. In fiscal year 2014/2015 estimated deductions of \$4.6 billion were taken for this purpose. Had these transactions been taxable at the 5% rate \$230.9 million in taxes would have been generated.

A.R.S. §§ 42-5061 (A)(25)(a, b, c, d), 42-5063(C)(3), 42-5065 (B)(2), 42-5066 (B)(3), 42-5067 (B)(2), 42-5074 (B)(8), 42-5159 (A)(13)(a, b, c, d, e, j): (Deduction Codes 545, 546, 572, and 574) Tangible personal property sold to a qualifying hospital or a qualifying health care organization used by the organization solely to provide health and medical related educational and charitable services and tangible personal property sold to or purchased by qualifying community health centers and health care organizations are exempt from transaction privilege and use tax. In fiscal year 2014/15 deductions of an estimated \$1 billion were taken for these exemptions. Had they been taxed at 5%, \$50.8 million would have been collected.

A.R.S. §§ 42-5061 (A)(25)(e), 42-5159 (A)(13)(k): (Deduction Code 544) Sales of tangible personal property to a nonprofit charitable organization that regularly serves meals to the needy and indigent on a continuing basis at no cost is exempt from the transaction privilege and use tax. During fiscal 2014/15, businesses deducted an estimated \$3.6 million for this exemption. At 5%, this would have raised \$1.8 million had it been taxable.

A.R.S. §§ 42-5061 (A)(25)(f), 42-5159 (A)(13)(m), 42-5075(B)(12): (Deduction Code 573) Sales of tangible personal property to a nonprofit charitable organization that provides residential apartment housing for low income persons over 62 years of age in a facility that qualifies for a federal housing subsidy, is exempt from the transaction privilege and use tax. The gross proceeds of sales from a contract for construction of a residential apartment housing facility that qualifies for a federal housing subsidy for low income persons over 62 years of age and that is owned by a nonprofit charitable organization is exempt from the prime contracting classification of transaction privilege tax. Information is not available on these expenditures for fiscal 2014/15.

UNDERGROUND STORAGE TANK TAX EXPENDITURES⁴⁹

FISCAL YEAR 2014/15

An underground storage tank tax is imposed by A.R.S. § 49-1031. For purposes of this tax, it is presumed until proven differently that all regulated substances which are motor vehicle fuel, aviation fuel and diesel and which are refined, manufactured, produced, compounded or blended in Arizona, or imported into the state, will be placed in an underground storage tank from which the fuel is dispensed to users who consume the fuel and do not further distribute it. The tax is levied at the rate of 1¢ per gallon of regulated substance. Revenue from this tax is deposited into the Arizona Department of Environmental Quality Assurance Account, used for corrective action projects.

UNDERGROUND STORAGE TANK TAX EXEMPTIONS

A.R.S. § 49-1031 (C): This tax does not apply to underground storage tanks operated by the United States or Arizona and its agencies. Currently, there are 85 federal tanks in use with an average tank capacity of 11,315 gallons. There are 72 state tanks currently in use with an average tank capacity of 10,480 gallons. The Department of Environmental Quality does not require the owners/operators of these tanks to report the total number of times they are refueled. Therefore, there is no information on the tax value of this tax expenditure.

A.R.S. § 49-1031 (C): Underground storage tanks used for the purpose of storing, handling or distributing naphtha-type jet fuel or kerosene-type jet fuel are exempt from the underground storage tank tax. Currently, there are 95 of these jet fuel tanks in use with an average tank capacity of 14,684 gallons. As with the underground storage tanks owned by the federal government and the state of Arizona, the owner/operators of these types of underground storage tanks are not required to report the number of times their tanks are refueled. Due to the lack of information, there is no way to calculate the impact of this tax expenditure.

A.R.S. § 49-1031: Above-ground storage tanks are not subject to this tax. The owners/operators of these types of tanks are not required to register their tanks with the Department of Environmental Quality nor with the State Fire Marshal. Municipalities regulate these types of tanks in their own city. Thus, due to the lack of information, it is not possible to determine the impact

⁴⁹ Any information for Underground Storage Tank Tax Expenditures was provided by the Arizona Department of Environmental Quality.

UNEMPLOYMENT INSURANCE TAX EXPENDITURES⁵²

FISCAL YEAR 2014/15

Unemployment insurance taxes are paid by liable employees on the first \$7,000 in gross wages they pay to each of their employees during the calendar year.

UNEMPLOYMENT INSURANCE TAX EXEMPTIONS

A.R.S. § 23-622: The following are exemptions from the definition of taxable wages:

- That part of the remuneration in excess of \$7,000 paid in a calendar year to an individual by an employer with respect to employment during the calendar year, unless that part of the excess remuneration is subject to a tax, under federal law, against which credit may be taken for contributions required to be paid into a state unemployment fund by employers subject to the federal law.
- The amount of any payment, including monies paid by an employer for insurance or annuities, made to or on behalf of an employee or his/her dependents under a plan or system established by an employer which makes provision for the employees generally on account of sickness or accident disability, medical or hospitalization expenses in connection with sickness or accident disability or death.
- The payment by an employer, without deduction from the remuneration of the employee, of the tax imposed upon an employee under §3101 of the IRC relating to federal insurance contributions with respect to remuneration paid to an employee for domestic service in a private home or for agricultural labor.
- Any payment on account of sickness or accident disability, or medical or hospitalization expenses in connection with sickness or accident disability, made by an employing unit to an employee after the expiration of six calendar months following the last calendar month in which the employee worked for such employing unit.
- Any payment made to an employee or his/her beneficiary:
 - (1) from or to a trust described in §401(a) of the IRC relating to qualified pension, profit sharing and stock bonus plans which tax-exempt under §501(a) of the IRC;
 - (2) under or to an annuity plan which is a plan described in §403(a) of the IRC;
 - (3) under a simplified employee pension as defined in §408(k)(1) of the IRC other than contributions described in §408(k)(6) of the IRC;
 - (4) under or to an annuity contract described in §403(b) of the IRC;
 - (5) under or to an exempt governmental deferred compensation plan; as defined in §3121(v)(3) of the IRC;

⁵² Any information for Unemployment Insurance Tax Expenditures was provided by the Arizona Department of Economic Security.

- (6) to supplement pension benefits under a plan or trust described in this paragraph to take into account some portion of the increase in the cost of living since retirement;
- (7) or under a cafeteria plan within the meaning of §125 of the IRC if such a payment would not be treated as wages without regard to such plan.
- Remuneration paid in any medium other than cash to an employee for service not in the course of the employing unit's trade or business.
- Remuneration paid for agricultural labor performed in any medium other than cash.
- Any tip, gratuity or service charge received by an employee, with certain exceptions.
- Remuneration which the individual receives for drill, training or other national guard or reserve activity which occurs on not more than one weekend per month.
- Remuneration paid to an employee if at the time of the payment it is reasonable to believe that a corresponding deduction is allowable under §217 of the IRC relating to moving expenses.
- Any contribution, payment or service provided by an employer which may be excluded from gross income under §120 of the IRC.
- Any payment made or benefit furnished to an employee if it is reasonable to believe that the employee will be able to exclude the payment or benefit from income under §127, relating to educational assistance, or §129, relating to dependent care assistance, of the IRC.
- The value of meals or lodging furnished by the employer if reasonable to believe that the employee will be able to exclude these items from income under §119 of the IRC.
- Any payment made by an employer to a survivor or the estate of a former employee after the calendar year in which the employee died.
- Any benefit provided to an employee if reasonable to believe that the employee will exclude the benefit from income under §74(c) relating to employee achievement awards, §117 relating to qualified scholarships or §132 relating to certain fringe benefits of the IRC.

A.R.S. § 26-613.01 (A) and (B): An employee is an individual who performs services for an employing unit and who is subject to the direction, rule or control of the employing unit as to both the method of performing the services and the result to be accomplished. This definition does not include:

- An individual who performs services as an independent contractor, business person, agent or consultant, or in a capacity characteristic of an independent profession, trade, skill or occupation.
- An individual subject to the direction, rule, control or subject to the right of direction, rule or control of an employing unit solely because of a provision of law regulating the employing unit.
- An individual or class of workers whose services have been exempted by the Internal Revenue Service from Federal Unemployment Tax.

- An individual whose services the employing unit demonstrates are performed in the same manner as a similarly situated class of workers whose services have been exempted by the Internal Revenue Service from Federal Unemployment Tax.
- An individual or class of workers that have previously been found not to be employees in prior audits by the department, but have currently been found to be employees due to prior audit errors, will not be treated as employees by the department for any previous time, but the employer will be required to begin reporting those workers during the next quarter.

A.R.S. § 23-615 (6)(d): Employment means any service of whatever nature performed by an employee for an employer. The following services are excluded from this definition of employment:

- Services performed in the employ of a church or convention or association of churches, or an organization operated primarily for religious purposes and which is operated, supervised, controlled or principally supported by a church or convention or association of churches.
- Services performed by a duly ordained, commissioned, or licensed minister of a church in the exercise of his or her ministry; or by a member of a religious order in the exercise of duties required by such order.

USE FUEL TAX EXPENDITURES⁵⁵ – FISCAL YEAR 2014/15

Arizona has a two-tiered use fuel (diesel fuel) tax rate. There is a use fuel tax rate of 26¢ per gallon on use fuel used in the propulsion of a use class motor vehicle on any highway within Arizona (A.R.S. § 28-5060 (B)(2)), with the exception of clean burning use fuel, and a use fuel tax rate of 18¢ per gallon of use fuel used in the propulsion of a light class motor vehicle or exempt use class motor vehicle (A.R.S. § 28-5606 (B)(1)). A tax of 26¢ is collected by licensed suppliers.

During fiscal year 2014/15, total use fuel tax collected was \$226.13 million. The primary source of revenue is from licensed suppliers. The proceeds of this tax go into the Highway User Revenue Fund and are distributed to the Department of Public Safety, Economic Strength Fund, state highway fund, counties, and incorporated cities and towns.

PREFERENTIAL USE FUEL TAX RATES

A.R.S. § 28-5614: For purposes of convenience the use fuel sold to light class motor vehicles and exempt use class motor vehicles by vendors is charged the 18¢ per gallon. Subsequently a vendor may request a refund for the 8¢ differential for the sales to light class motor vehicles and exempt use class motor vehicles. The amount of refunds issued for fiscal year 2014/15 was \$15.55 million. Liquid use fuel, used for export purposes is taxed at a \$0.26 per gallon rate. The amount refunded for this type of use fuel during fiscal year 2014/15 was \$1.93 million.

A.R.S. § 28-5728: There is a \$0.02 per gallon credit for all use fuel purchased in Arizona and used outside of the state. The total amount refunded for this type of purchase during fiscal year 2014/15 was \$224,285.

A.R.S. § 28-5606: Fuel used on use class motor vehicles used to transport forest products in compliance with § 41-1516 is taxed at \$0.13 per gallon. This tax is perfected by the approved companies filing a refund request. Refunds for fiscal year 2014/15 were \$34,276.

EXEMPTIONS TO THE USE FUEL TAX

A.R.S. § 28-5610 (A)(8)(a and b): Dyed diesel sold for Off-Highway uses, Farm tractors and implements of husbandry designed primarily for or used in agricultural operations and only incidentally operated or moved upon a highway are exempt from use fuel tax. Road rollers or vehicles which are designed and used primarily for grading, paving, earth moving and other construction work on highways and which are not designed or used primarily for transportation of persons or property and which are incidentally operated or moved over the highway are also exempt from use fuel tax. Refunds granted for these types of exemptions together totaled \$7.13 million in fiscal year 2014/15.

⁵⁵ Any information for Use Fuel Tax Expenditures was provided by the Arizona Department of Transportation.

A.R.S. § 28-5610 (A)(7): Taxable use fuel that has been accidentally contaminated so as to be unusable as highway fuel as proved by proper documentation is exempt.

A.R.S. § 28-5610 (A)(3): Liquid use fuel sold within an Indian reservation to an enrolled member of the tribe is excluded from taxation. The total amount refunded for this provision during fiscal year 2014/15 was \$84,855.

A.R.S. § 28-5610 (A)(4): Use fuel used solely and exclusively as fuel to operate a motor vehicle on highways in Arizona when the motor vehicle is leased or owned by an Indian tribe and being operated for the sole benefit of an Indian tribe and used only for governmental purposes.

A.R.S. § 28-5610 (A)(6): Use fuel sold to the United States or an instrumentality or agency of the United States is exempt from the motor vehicle fuel tax. During fiscal year 2014/15, \$330,764 was refunded for this exemption.

A.R.S. § 28-5751: Each supplier that properly remits use fuel tax may retain 4/10 of 1% of the tax imposed to cover the costs of administration of the tax. This amount would have been collected by the state if this provision were not in effect. The value of this provision for fiscal year 2014/15 is \$1.72 million.

A.R.S. § 28-5708 (A)(2): All clean burning fuels are no longer taxed. Since taxpayers who consume alternative fuels are not required to report their use information to the department, no information is available on this exemption.

A.R.S. § 28-5703 (B)(1): International Fuel Tax Agreement (IFTA) tax distributed to other states for fiscal year 2014/15 is \$16.6 million.

VEHICLE LICENSE TAX EXPENDITURES⁵⁸ – FISCAL YEAR 2014/15

Arizona imposes a vehicle license tax at the rate of \$2.95 for each \$100 in vehicle value during the first 12 months of life of the vehicle. During the succeeding periods, the tax rate is \$3.04. The vehicle value is set at 60% of the manufacturer's base retail price in the first year and declines by 16.25% each year thereafter. The minimum vehicle license tax is \$10. The proceeds of this tax are distributed to the state highway fund, counties, incorporated cities and towns and the state general fund.

PREFERENTIAL VEHICLE LICENSE TAX RATES

A.R.S. §§ 28-5804, 28-5806, 28-5805: Three classes of motor vehicles pay lower vehicle license tax rates. Privately owned motor vehicles which are exclusively operated as a school bus, privately owned ambulances and fire fighting vehicles, and motor vehicles powered by alternative fuels have a vehicle value in the first year of 1% of the manufacturer's base retail price. The minimum tax for these vehicles is \$5.00. The information on this tax expenditure is not available at this time.
