**A MONTHLY REPORT FROM THE OFFICE OF ECONOMIC RESEARCH AND ANALYSIS,**  
**ARIZONA DEPARTMENT OF REVENUE**

**Executive Summary**  
**April 2020**

- The Arizona Department of Revenue collected corporate income taxes of \$53.4 million and refunded \$2.9 million for net collections of \$50.4 million (or \$47.4 million less than last year).
- Net collections for the current fiscal year of \$436.1 million were \$66.6 million more than last fiscal year (with a \$27.0 million increase in collections and a \$39.6 million decrease in refunds).
- Due to COVID-19, the deadline for filing and paying corporate income tax returns for calendar year filers was moved from April 15 to July 15. There was no extension for estimated payments.
- Estimated payments were \$39.6 million for April (or \$23.7 million less than last year). Estimated payments of \$414.9 million for the current fiscal year were \$30.4 million more than last fiscal year.
- 630 corporations made estimated payments of \$37.4 million through electronic funds transfer (EFT) in April compared to 926 corporations for \$60.1 million last year (or a decrease in EFT estimated payments of \$22.7 million).
- Extension payments were \$9.6 million for April (or \$26.4 million less than last year). Extension payments of \$37.2 million for the current fiscal year were \$19.8 million less than last fiscal year.
- Corporate refunds for April were \$2.9 million (or \$1.1 million less than last year) and \$91.0 million for the current fiscal year (or \$39.6 less than the prior fiscal year).
- Of the refunds issued through April, 66.9% were for corporate fiscal years ending in 2018 and 23.4% were for corporate fiscal years ending in 2015 or earlier.
- Corporations that applied their refund to next year's estimated payments instead of receiving a refund check equaled \$9.7 million in April (or a \$5.2 million increase over last year) and \$286.7 million for the current fiscal year (or a decrease of \$12.9 million).
- 45 refunds issued in April were over \$10,000 for a total of \$2.7 million (compared to 15 refunds over \$10,000 for a total of \$4.1 million last year).
- Through April 2020, 61,253 documents were processed with a fiscal year-end of 2019 compared to 34,588 documents processed through last April with a fiscal year-end of 2018 (or a 77.1% increase).

**CORPORATE ESTIMATED PAYMENTS**

Corporations are required to file estimated tax payments throughout the year only if (1) their Arizona tax liability exceeds \$1,000 and (2) they are required to file federal estimated tax payments. Although the deadline for filing and paying corporate income tax returns for calendar year filers was moved to July 15 due to COVID-19, there was no extension to the deadline for estimated payments.

**CORPORATE EXTENSION PAYMENTS**

Corporations may request an extension of time to file a return. An extension of time to file the return does not provide an extension of time to pay the tax. Corporations must pay 90% of the tax liability by the original due date of the return. Due to COVID-19, the deadline for filing and paying corporate income tax returns for calendar year filers was moved from April 15 to July 15.

**CORPORATE REFUNDS**

Corporate refunds paid in any state fiscal year are for a mixture of corporate fiscal years. The table below presents the percent of refunds paid in FY 2019 and FY 2020 by corporate fiscal year. For example, in FY 2019, 38.3% of the refund dollars paid were for corporate fiscal years ending in 2014 or before. The percentages are for refunds paid through the fiscal year.

**CORPORATE INCOME TAX DOCUMENT COUNT**

The Arizona Department of Revenue processed 147,893 corporate returns showing a fiscal year-end of 2018. The type of return processed is indicated below:

	<b>120 X (Amended)</b>	<b>120 (Regular)</b>	<b>120S (S Corp)</b>	<b>99T (Exempt Org.)</b>	<b>120 A (Short Form)</b>

Through April 2020, 61,253 documents were processed for a fiscal year-end of 2019, distributed as follows:

	<b>120 X (Amended)</b>	<b>120 (Regular)</b>	<b>120S (S Corp)</b>	<b>99T (Exempt Org.)</b>	<b>120 A (Short Form)</b>
#	15	10,040	45,666	184	5,348
%	0.0%	16.4%	74.6%	0.3%	8.7%

The figures for the 2019 returns are most meaningful when compared to 2018 returns processed during the same period of time in the previous year. Through April 2019, the Department of Revenue processed 34,588 documents with a fiscal year-end of 2018. Compared to 2018 documents, the department has seen a 77.1% increase in the number of corporate returns processed at this point of time in the calendar year.

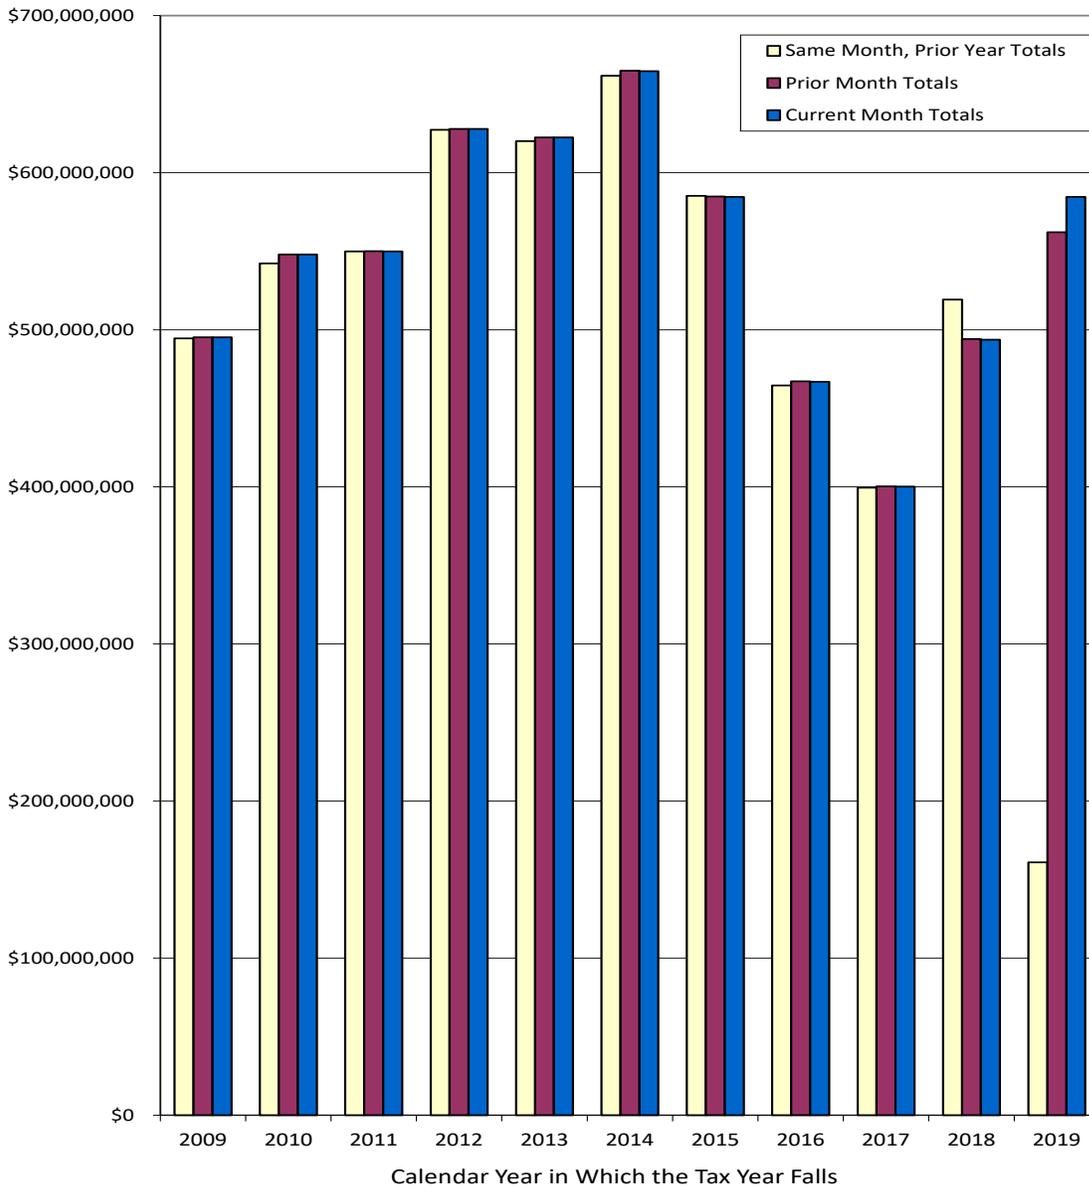

**CORPORATE TAX LIABILITY**

Corporate revenues and refunds for large corporations flow through the state coffers over three state fiscal years for each corporate fiscal year. For example, consider a corporate fiscal year that corresponds to the calendar year. Estimated payments are received in April of state fiscal year X. More estimated payments are received in the second half of the calendar year, which is state fiscal year Y. In April of the following calendar year, still state fiscal year Y, either the final corporate return is filed with payment made or notice of refund due or an extension is filed with some payment. Large corporations nearly always file an extension, which means final returns are not submitted until October, which is state fiscal year Z. These final returns will have payments or notice of refund due.

The following chart shows corporate tax liability within a calendar year. The data for this table aggregates all payments and refunds for corporate fiscal years, regardless of state fiscal year, and then all corporate fiscal years are aggregated within a calendar year. For example, fiscal years ending January 2016, February 2016, March 2016, etc., are aggregated into 2016. The maroon bars are liability totals from last month; the blue bars are liability totals from the current month. The difference is the activity occurring in the current month. The yellow bars represent the aggregate liability from a year earlier. For example, in April 2017, net payments for corporate fiscal years ending 2016 were \$552 million. In April 2018, net payments for fiscal years ending 2016 had dropped to \$477 million. This means that \$75 million in refunds for fiscal years ending 2016 was paid between April 2017 and April 2018.

Corporate Tax Liability Within A Calendar Year

All payments and refunds are aggregated by corporate fiscal year-end. This creates a database of net corporate liability for fiscal year periods. The table on the following page, Corporate Payment Totals by DOR Fiscal Year, reflects payments and refunds by the state fiscal year in which it is received. The problem here is capturing the corporate fiscal year-end for all transactions. Therefore, for each state fiscal year, a varying amount of revenue is missing from this database.

The final table included with this report, Grand Total Net Corporate Payments by Corporate, present revenues for each corporate fiscal year, aggregated by calendar year, and grouped by the state fiscal year in which they were received. Moving horizontally, there are three numbers for each corporate fiscal year that represent the bulk of tax liability for all corporations within a corresponding fiscal year end.
